

DEUTZ TCD 2.2

For mobile machinery ■ 22.5-55.4 kW / 30-75 hp at 2200-2600 min⁻¹/rpm ■ EU Stage V / US EPA Tier 4

- Newly designed, 5-cylinder engine with cooled, external exhaust gas recirculation with and without turbocharging and optionally with and without charge air cooling.
- Robust engine design for demanding industrial applications based on the successful TCD 2.9 series.
- Use of OVERT[®] oxidation catalyst (DOC) enables maintenance-free operation under all application and ambient conditions for Tier 4 respectively use of OVERT[®] particulate filter (DPF) for Stage V.
- The powerful Common Rail injection system and highly-efficient combustion process ensure optimum engine performance at low fuel consumption.
- Similar foot print and major installation interfaces as TCD 2.9 and G 2.2 / G 2.9 LPG engines for ease of installation in diesel and gas powered machines.
- Up to 1000 h oil change intervals, maintenance-free valve train and optionally service-friendly multi-V belt drive result in low maintenance costs and increased machine availability.
- The extremely compact engine design and customer friendly accessories reduce the installation cost and increase the number of applications.
- The engines come with a modular exhaust aftertreatment system (EAT) configuration including the option of engine mounted systems. This simplifies machine integration for the OEM considerably and virtually means a drop-in solution.

- 100% power take-off at flywheel and front end and additional side PTO drive with up to 120 Nm for the mounting of hydraulic pumps.
- Variants without EAT for lesser regulated markets will enlarge the product range at a later point of time.
