Developing Learning Environments Creativity Motivation And Collaboration In Higher Education:

Developing Learning Environments Ora Kwo, Tim Moore, John Jones, 2004-04-01 This book addresses critical challenges for university renewal and sketches critical issues in Hong Kong's higher education that have global implications. Contributors to the book were originally gathered for a conference funded by the University Grants Committee (UGC) of Hong Kong and took as their starting point the work of the Carnegie Foundation on The Scholarship of Teaching and Learning. With the worldwide move towards public accountability, academics live in a climate of assessment and must constantly adapt to new pressures. This book presents a focus on leadership in learning on the basis of which academics can reconcile pressures and paradoxes, transcend the system and move on to a public domain where teaching and research can be integrated in scholarly discourse and practice. The shared professional insights as articulated by the contributors to this book will be most helpful to academics who are navigating through these turbulent waters. Emerging from the major thrusts of the selected papers are three thematic divisions: Critical and Creative Thinking, Motivation in Learning, and Collaboration in Teaching and Learning. The targeted readers include academics, administrators, and policy makers in higher education. The primary focus is on academics as teachers to whom the contributors can communicate authentically as frontline practitioners in an optimistic tone without being naive. Together, the chapters transcend local concerns and contribute to a developing international discourse on the impact of scholarship of teaching on learning. Rather than advocating certain approaches from successful experiences, the book generates ideas for research into teaching, making transparent the dynamics of learning.

Wittgenstein and Education Adrian Skilbeck, Paul Standish, 2023-07-18 WITTGENSTEIN AND EDUCATION Wittgenstein's later writings are abundant with examples, and these return repeatedly to scenes of teaching and learning. Light is cast on language, belief, imagination, perception, illusion, and obsession by asking for each how it is acquired. How do we come into the practices that make up our lives? How, beyond the biological, do we become human beings? Wittgenstein wanted not to spare others the trouble of thinking but to stimulate readers to thoughts of their own. Yet so much in education today leads students and their teachers along clearly planned, direct routes to achievement, to success without the trouble of thinking. Knowledge and understanding are displaced by transferrable skills and competences, with teacher education reduced to priorities of classroom management skills and curriculum delivery. In this climate, there is a new growth of interest in the illumination Wittgenstein provides for enquiry into education. This collection, originating in the Annual Conference of the British Wittgenstein Society in 2018, celebrates this influence and demonstrates the range of Wittgenstein's importance for education.

Education and Society in Hong Kong and Macao Mark Bray, Ramsey Koo, 2005 *Education and Society in Hong Kong and Macao* M. Bray, Ramsey Koo, 2006-06-28 Hong Kong and Macao have much in common. The dominant populations in both territories are Cantonese-speaking Chinese; both are small in area; both are urban societies; both have been colonies of European powers; and both have undergone political transition to reunification with China. Yet in

education for reasons that are analysed in this book they are very different The patterns of similarities and differences in the two territories make a fascinating basis for comparative study The overarching theme of the book on continuity and change is particularly pertinent following the transition of the two societies of the postcolonial era This thoroughly revised and expanded second edition builds on the widely acclaimed first edition The work has been recognised as a significant contribution to the broad field of comparative education as well as to study of the specific societies which are its main focus

Cultivating Creative Collaboration in Student Virtual Teams in Higher Education: Design and Climate Nemiro, Jill E., 2025-07-16 Over the last twenty years creativity has been shown to be a critical element to contemporary organizations especially as global competition the need for innovation and technological advances have intensified The rise of technological advances has produced an increase in remote work and virtual teams especially within business settings to deal with global competition and the rise of non routine work However the COVID 19 pandemic generated an even greater increase in the utilization of remote work and virtual teams not only in business but in higher education as well and it appears that this trend is not going away Thus it is crucial to teach students how to work effectively in virtual teams to prepare them for their future careers Training current employees in virtual teaming skills is also necessary as more professionals are transitioning into remote or hybrid work Cultivating Creative Collaboration in Student Virtual Teams in Higher Education Design and Climate provides an in depth understanding of how to design academic courses and business training experiences that can offer employees and college level students hands on experiences to develop virtual teamwork skills It aims to nurture students professional development by enhancing their creativity while working in virtual teams and to assist faculty in designing and implementing effective virtual team learning experiences in their courses Covering topics such as intentional team culture information sharing and setting communication norms this book is an excellent resource for educational leaders educators instructional designers technology instructors human resource HR managers business leaders professionals researchers scholars academicians and more

Silence in English Language Pedagogy Dat Bao, 2023-02-09 Silence in language learning is commonly viewed negatively with language teachers often struggling to interpret learner silence and identify whether it is part of communication mental processing or low engagement This book addresses silence in language pedagogy from a positive perspective translating research into practice in order to inform teaching and to advocate greater use of positive silence in the classroom The first half of the book examines the existing research into silence and the second half provides research informed practical strategies and classroom tasks It offers applicable principles for task design that utilises rich resources which include visual arts mental representation poetry music and other innovative tools to allow both silence and speech to express their respective and interrelated roles in learning Comprehensive yet accessible it is essential reading for academic researchers and students in applied linguistics TESOL and language teaching as well as for language teachers and educators
