Expanding the Lexicon Sabine Arndt-Lappe, Angelika Braun, Claudine Moulin, Esme Winter-Froemel, 2018-01-22 The creation of new lexical units and patterns has been studied in different research frameworks focusing on either system internal or system external aspects from which no comprehensive view has emerged The volume aims to fill this gap by studying dynamic processes in the lexicon understood in a wide sense as not being necessarily limited to the word level by bringing together approaches directed to morphological productivity as well as approaches analyzing general types of lexical innovation and the role of discourse related factors The papers deal with ongoing changes as well as with historical processes of change in different languages and reflect on patterns and specific subtypes of lexical innovation as well as on their external conditions and the speakers motivations for innovating Moreover the diffusion and conventionalization of innovations will be addressed In this way the volume contributes to understanding the complex interplay of structural cognitive and functional factors in the lexicon as a highly dynamic domain *The Language of Art and Cultural Heritage* Ana Pano Alamán, 2020-03-04 Communicating art and cultural heritage has become a crucial and challenging task since these sectors together with tourism heritage represent a key economic resource worldwide In order to activate this economic and social potential art and cultural heritage need to be disseminated through effective communicative strategies Adopting a wide variety of digital humanities approaches and a plurilingual perspective the essays gathered in this book provide an extensive and up to date overview of digital linguistic resources and research methods that will contribute to the design and implementation of such strategies Cultural and artistic content curators specialised translators in the fields of art architecture tourism and web documentaries researchers in art history and tourism communication and cultural heritage management professionals among others will find this book extremely useful due to its provision of some concrete

applications of innovative methods and tools for the study and dissemination of art and heritage knowledge *The Oxford Handbook of the French Language* Wendy Ayres-Bennett, Mairi McLaughlin, 2024-07-12 This volume provides the first comprehensive reference work in English on the French language in all its facets It offers a wide ranging approach to the rich varied and exciting research across multiple subfields with seven broad thematic sections covering the structures of French the history of French axes of variation French around the world French in contact with other languages second language acquisition and French in literature culture arts and the media Each chapter presents the state of the art and directs readers to canonical studies and essential works while also exploring cutting edge research and outlining future directions The Oxford Handbook of the French Language serves both as a reference work for people who are curious to know more about the French language and as a starting point for those carrying out new research on the language and its many varieties It will appeal to undergraduate and graduate students as well as established scholars whether they are specialists in French linguistics or researchers in a related field looking to learn more about the language The diversity of frameworks approaches and scholars in the volume demonstrates above all the variety vitality and vibrancy of work on the French language today **The Oxford Handbook of Silent Cinema** Rob King, Charlie Keil, 2024 The Oxford Handbook of Silent Cinema is a collection of new scholarship that investigates the first decades of motion picture history from diverse perspectives and methodologies Featuring over thirty essays by leading scholars in the field the Handbook offers a comprehensive overview of cinema s earliest years while also illuminating how cinema derived strength from competing cultural forms becoming in the process the most influential mass medium of the early twentieth century *Temptation Transformed* Azzan Yadin-Israel, 2024-03-08 Adam Eve the Serpent the Garden of Eden and the apple That fruit is one of the most potent symbols in all of human history It is so closely tied to temptation knowledge the Fall of Man and sin that it needs no explanation when deployed in everything from art to advertising to movies It s no secret that the fruit in the Book of Genesis is never actually identified as an apple So how did we get to this common association The standard story repeated since at least the seventeenth century is that it is due to a Latin pun But what if that story is wrong In *Temptation Transformed* scholar of religion Azzan Yadin Israel offers a different story He examines how the Fall of Man was represented in art form early Christianity through the Renaissance revealing that the iconography of the apple emerged in twelfth century France From there it spread to England Germany and the Low Countries while remaining only a marginal presence in Italy and Spain for centuries Armed with the when and where Yadin Israel then explains why the apple tradition arose and circulated as it did Surprisingly the answer is found in the evolution of Europe s vernaculars Three centuries is a long time to labor under a misconception especially one that involves the most prominent biblical symbol other than the cross Through an interdisciplinary engagement of scholastic commentary Christian iconography and Fall of Man narratives *Temptation Transformed* offers a long overdue corrective *The Books that Made the European Enlightenment* Gary Kates, 2022-08-11

In contrast to traditional Enlightenment studies that focus solely on authors and ideas Gary Kates employs a literary lens to offer a wholly original history of the period in Europe from 1699 to 1780 Each chapter is a biography of a book which tells the story of the text from its inception through to the revolutionary era with wider aspects of the Enlightenment era being revealed through the narrative of the book's publication and reception Here Kates joins new approaches to book history with more traditional intellectual history by treating authors publishers and readers in a balanced fashion throughout Using a unique database of 18th century editions representing 5 000 titles the book looks at the multifaceted significance of bestsellers from the time It analyses key works by Voltaire Adam Smith Madame de Graffigny Jean Jacques Rousseau and David Hume and champions the importance of a crucial innovation of the age the rise of the erudite blockbuster which for the first time in European history helped to popularize political theory among a large portion of the middling classes Kates also highlights how when and why some of these books were read in the European colonies as well as incorporating the responses of both ordinary men and women as part of the reception histories that are so integral to the volume
