Die Alien Connection German Edition:

Of an Alien Homecoming Charles Bambach, 2022-07-01 Few themes resonate as powerfully in Heidegger as those connected to homecoming homeland and Heimat This emphasis plays out most powerfully in Heidegger's reading of Hölderlin and his turn towards language art and poetizing as a way of thinking through the poet's relevance in the epoch of homelessness and the abandonment of the gods As the first book length study in English of the Heidegger Hölderlin relation *Of an Alien Homecoming* addresses the tension within Heidegger's work between his disastrous political commitments during the era of National Socialism and his attempts to open a path to a German future nurtured on Hölderlin's ideal of poetic dwelling Charles Bambach reads this work on Hölderlin from 1934-1948 in conversation with the *Black Notebooks* and Heidegger's metapolitics even as he uncovers an ethical dimension within Heidegger that pervades his reading of poetry Throughout all of these various stages on Heidegger's thought path Hölderlin remains the poet who poetizes the possibility of finding our lost home amidst the homelessness brought about in the epoch of technological thinking [Nature in the Middle Ages and the Early Modern Times](#) Albrecht Classen, 2024-07-01 The study of pre modern anthropology requires the close examination of the relationship between nature and human society which has been both precarious and threatening as well as productive soothing inviting and pleasurable Much depends on the specific circumstances as the works by philosophers theologians poets artists and medical practitioners have regularly demonstrated It would not be good enough as previous scholarship has commonly done to examine simply what the various writers or artists had to say about nature While modern scientists consider just the hard core data of the objective world cultural historians and literary scholars endeavor to comprehend the deeper meaning of the concept of nature presented by countless writers and artists Only when we have a good grasp of the interactions between people and their natural environment are we in a position to identify and interpret mental structures social and economic relationships medical and scientific concepts of human health and the messages about all existence as depicted in major art works In light of the current conditions threatening to bring upon us a global crisis it matters centrally to take into consideration pre modern discourses on nature and its enormous powers to understand the topoi and tropes determining the concepts through which we perceive nature Nature thus proves to be a force far beyond all human comprehensibility being both material and spiritual depending on our critical approaches **The Black Mirror and Other Stories** Franz Rottensteiner, 2008-12-31 Handsomely equipped with a comprehensive introductory historical essay editor's notes and selected bibliography this distinguished anthology is a model of genre research These previously untranslated stories published from 1871 onward offer reading virtually unknown to most American and many German readers Some authors combine scientific and philosophical issues like Kurd Lasswitz in his witty tale *To the Absolute Zero of Existence* A Story from 2371 while others as in Erik Simon's 1983 title story pose psychological puzzles involving alien phenomena Though the earlier stories in particular demand painstaking reading all of them repay it with rewarding insights

into German and Austrian culture and the many possible uses and misuses of science *Salvation is from the Jews* Anders Gerdmar,2024-10-21 Unheil curse disaster according to German scholar Gerhard Kittel this is the Jewish destiny attested to in scripture Such interpretations of biblical texts provided Adolf Hitler with the theological legitimatization necessary to realizing his final solution But theological antisemitism did not begin with the Third Reich Ferdinand Baur s nineteenth century Judaism Hellenism dichotomy empowered National Socialist scholars to construct an Aryan Jesus cleansed of his Jewish identity building on Baur s Enlightenment prejudices Anders Gerdmar takes a fresh look at the dangers of the politicization of biblical scholarship and the ways our unrecognized interpretive filters may generate someone else s apocalypse *The Daēva Cult in the Gāthās* Amir Ahmadi,2015-04-10 Addressing the question of the origins of the Zoroastrian religion this book argues that the intransigent opposition to the cult of the da vas the ancient Indo Iranian gods is the root of the development of the two central doctrines of Zoroastrianism cosmic dualism and eschatology fate of the soul after death and its passage to the other world The da va cult as it appears in the G th s the oldest part of the Zoroastrian sacred text the Avesta had eschatological pretensions The poet of the G th s condemns these as deception The book critically examines various theories put forward since the 19th century to account for the condemnation of the da vas It then turns to the relevant G thic passages and analyzes them in detail in order to give a picture of the cult and the reasons for its repudiation Finally it examines materials from other sources especially the Greek accounts of Iranian ritual lore mainly in the context of the mystery cults Classical Greek writers consistently associate the nocturnal ceremony of the magi with the mysteries as belonging to the same religious cultural category This shows that Iranian religious lore included a nocturnal rite that aimed at ensuring the soul s journey to the beyond and a desirable afterlife Challenging the prevalent scholarship of the Greek interpretation of Iranian religious lore and proposing a new analysis of the formation of the Hellenistic concept of magic this book is an important resource for students and scholars of History Religion and Iranian Studies **Hegel and Christian Theology : A Reading of the Lectures on the Philosophy of Religion** Peter C. Hodgson,2005-03-03 Peter C Hodgson engages the speculative reconstruction of Christian theology that is accomplished by Hegel s Lectures on the Philosophy of Religion and provides a close reading of the critical edition of the lectures He analyses Hegel s concept of the object and purpose of the philosophy of religion his critique of the theology of his time his approach to Christianity within the framework of the concept of religion his concept of God his reconstruction of central Christian themes and his placing of Christianity among the religions of the world Hodgson makes a case for the contemporary theological significance of Hegel by identifying currently contested sites of interpretation and their Hegelian resolution Cultures in Contact Dirk Hoerder,2002-11-21 Analysis of migrations regional interregional continent wide and global and the resulting cultural interactions and societal changes **Migration and Cultural Contact: Germany and Australia** Andrea Bandhauer,Maria Veber,2010-02-01 The collected essays in Migration and Cultural Contact Germany and Australia investigate historical
