STRATEGY: Start by reading through your notes to refresh your memory on these topics. Then, use this review sheet as a starting point to identify the areas on which you need to spend more study time. For those areas, go back to homework assignments, quizzes, and reviews to practice more problems. Don't just answer the questions you know! If you don't know an answer, look it up in your notes, book or online. Also, these are not the questions that will be on the test, you need to be able to understand WHY an answer is correct, and not just WHAT the answer is...copying won't help you on the Final Exam!
