Marie-Louise Nosch, Henriette Koefoed

Collegia Centonariorum Collegia Centonariorum:

Collegia Centonariorum Jinyu Liu, 2009 The collegia centonariorum were often seen as the municipal fire brigades or status groups of sorts in the Roman cities Through a close investigation of the chronological development and geographical distribution of the collegia centonariorum their legal privileges and the prosopographical data of members and patrons this volume reveals a much more complex picture of their origins characters and compositions in various regions from the first century BC to the fourth century AD Intricately connected with the textile economy the collegia centonariorum illustrate how elements as diverse as material demand from the military and the city of Rome legal infrastructure urban development and organizations of urban based craftsmen and tradesmen may have interfaced with each other in the Roman world

Occupation, Social Organization, and Public Service in the Collegia Centonariorum in the Roman Empire (first Century BC-fourth Century AD) Jinyu Liu, 2005 **Occupation, Social Organization, and Public Service in the Collegia**

Centonariorum Jinyu Liu, 2004 **Social Interactions and Status Markers in the Roman World** George Cupcea, Rada Varga, 2018-03-31 Proceedings from the People of the Ancient World conference held in Cluj Napoca Romania in 2016 Ten papers encompass diverse approaches to Roman provincial populations and the corresponding case studies highlight the multi faceted character of Roman society **Communal Dining in the Roman West** Shanshan Wen, 2022-06-27

Communal Dining in the Roman West explores why the practice of privately sponsored communal dining gained popularity in certain parts of the Western Roman Empire for almost 300 years This book brings together 350 Latin inscriptions to examine the benefactors and beneficiaries the geographical and chronological distributions and the relationship between public and collegial dining practices It argues that food related euergetism was a region specific phenomenon which was rooted in specific social and political cultures in the communities of Italy Baetica and Africa Proconsularis The region specific differences in political cultures and long term changes in these cultures are key to understanding not only the long persistence of this practice but also its ultimate disappearance **Wearing the Cloak** Marie-Louise Nosch, Henriette

Koefoed, 2011-12-07 Wearing the Cloak contains nine stimulating chapters on Roman military textiles and equipment that take textile research to a new level Hear the sounds of the Roman soldiers clacking belts and get a view on their purchase orders with Egyptian weavers Could armour be built of linen Who had access to what kinds of prestigious equipment And what garments and weapons were deposited in bogs at the edge of the Roman Empire The authors draw upon multiple sources such as original textual and scriptural evidence ancient works of art and iconography and archaeological records and finds The chapters cover as did the Roman army a large geographical span Egypt the Levant the Etruscan heartland and Northern Europe Status prestige and access are viewed in the light of financial and social capacities and help shed new light on the material realities of a soldier's life in the Roman world **Reframing the Roman Economy** Dimitri Van

Limbergen, Adeline Hoffelinck, Devi Taelman, 2022-11-17 This book focuses on those features of the Roman economy that are

less traceable in text and archaeology and as a consequence remain largely underexplored in contemporary scholarship By reincorporating for the first time these long obscured practices in mainstream scholarly discourses this book offers a more complete and balanced view of an economic system that for too long has mostly been studied through its macro economic and large scale and thus archaeologically and textually omnipresent aspects The topic is approached in five thematic sections covering unusual actors and perspectives unusual places of production exigent landscapes of exploitation less visible products and artefacts and divergent views on emblematic economic spheres To this purpose the book brings together a select group of leading scholars and promising early career researchers in archaeology and ancient economic history well positioned to steer this ill developed but fundamental field of the Roman economy in promising new directions Rulers and Ruled in Ancient Greece, Rome, and China Hans Beck, Griet Vankeerberghen, 2021-02-04 Situated on opposite flanks of Eurasia ancient Mediterranean and Han Chinese societies had a hazy understanding of each other's existence But they had no grounded knowledge about one another nor was there any form of direct interaction In other words their historical trajectories were independent In recent years however many similarities between both cultures have been detected which has energized the field of comparative history The present volume adds to the debate a creative method of juxtaposing historical societies Each contribution covers both ancient China and the Mediterranean in an accessible manner Embarking from the observation that Greek Roman and Han Chinese societies were governed by comparable features the contributors to this volume explain the dynamic interplay between political rulers and the ruled masses in their culture specific manifestation as *demos* Greece *populus* Rome and *min* China **Selected letters of the younger Pliny** Pliny (the Younger.), 1919 *Work and Labour in the Cities of Roman Italy* Miriam J. Groen-Vallinga, 2022-11-17 Work and labour are fundamental to an understanding of Roman society In a world where reliable information was scarce and economic insecurity loomed large social structures and networks of trust were of paramount importance to the way work was provided and filled in Taking its cue from New Institutional Economics this book deals with the wide range of factors shaping work and labour in the cities of Roman Italy under the early empire from families and familial structures to labour collectives slavery education and apprenticeship To illuminate the complexity of the market for labour this monograph offers a new analysis of the occupational inscriptions and reliefs from Roman Italy placing them in the wider context by means of documentary evidence like apprenticeship contracts legal sources and material remains This synthesis therefore provides a comprehensive analysis of the ancient sources on work and labour in Roman urban society leading to a novel interpretation of the market for work and a fuller understanding of the daily lives of nonelite Romans For some of them work was indeed a source of pride whereas for others it was merely a means to an end or a necessity of life
