New Perspectives on Judeo-Spanish and the Linguistic History of the Sephardic Jews, 2024-05-06 At the intersection of Jewish studies and linguistic research the essays assembled in this book approach the topic of the languages of Sephardic Jews from different perspectives spanning chronologically from the Middle Ages to the present day. Drawing on diverse sources from medical glossaries to inquisition archives from rabbinic responsa to recordings of today's speakers the scholars collaborating on this project have endeavoured to reconstruct fragments of a complex and elusive linguistic reality which over the centuries has been shaped by the historical experience of its speakers. An innovative collection of rigorously conducted synchronic and diachronic studies that contributes to expanding our knowledge and opening new perspectives on crucial issues such as the effects of contact on the linguistic structures the possibility of a norm for polycentric languages the relationship between the lexicon of a language and the vitality of its speech community.

Bibliografía cronológica de la lingüística, la gramática y la lexicografía del español (BICRES V) Miguel Ángel Esparza Torres, Hans-Josef Niederehe, 2015-10-15 Since the publication of the still very valuable Biblioteca histórica de la filología by Cipriano Muñoz y Manzano conde de la Viña Madrid 1893 our knowledge of the history of the study of the Spanish language has grown considerably and most manuscript and secondary sources had never been tapped before. Hans-Josef Niederehe of the University of Trier courageously undertook the task to bring together any available bibliographical information together with much more recent research findings scattered in libraries journals and other places. The resulting Bibliografía cronológica de la lingüística la gramática y la lexicografía del español. Desde los principios hasta el año 1600 BICRES began appearing
