Controversial Issues In Adventure Programming:

Controversial Issues in Adventure Programming Bruce Martin, Mark Wagstaff, 2012-05-04 *Controversial Issues in Adventure Programming* offers an engaging approach to the consideration of enduring current and emerging issues in the field. Written primarily for upper level undergraduate and graduate students, the text presents 20 issues in a debate format challenging students to participate in critical discourse concerning these issues as practitioners in the field of adventure programming. Respected authors Bruce Martin and Mark Wagstaff have assembled a team of more than 50 contributors from around the globe to reassess some of the underlying assumptions on which adventure programming is based. They have critically examined implications of new developments for emerging practice and discussed how best to position the field of adventure programming in addressing broader societal concerns. To set the stage for the debate, each issue is prefaced with a general overview including the evolution of the issue and its significance in light of broader social concerns. Then contributors present the pros and cons of each issue. A debate format helps students develop an understanding of the key points around each issue while also becoming familiar with current research pertinent to these issues. This approach also encourages students to grapple with these issues and begin to develop their own informed thoughtful perspectives as they prepare for careers in adventure programming. *Controversial Issues in Adventure Programming* is divided into two parts. Part I begins by discussing issues of ongoing concern in the field including the certification debate, motorized versus nonmotorized forms of outdoor recreation, and program accreditation. In part II, contemporary and emerging issues are presented such as the use of online educational programming in the field of adventure programming. As a reference for practitioners and policy makers, *Controversial Issues in Adventure Programming* offers new and updated perspectives on enduring and emerging issues as well as a synthesis of the most recent related scholarly literature. In addition, the text serves as a resource in understanding how the adventure programming industry can contribute to addressing issues of broad concern in society such as public health, global climate change, stewardship of public lands and waterways, and education reform. *Controversial Issues in Adventure Programming* encourages readers to participate in some of the central debates occurring in the field. In particular, this timely resource will help students broaden their understanding of the field as they critically examine and respond to a range of enduring, contemporary, and emerging topics in adventure programming.

Controversial Issues in Adventure Education Tom G. Outdoor Leadership Bruce Martin, Mary Breunig, Mark Wagstaff, Marni Goldenberg, 2024-04-30 *Outdoor*

Leadership Third Edition With HKPropel Access introduces students to a wide variety of theories and concepts that are integral to the understanding of outdoor leadership and it demonstrates how these concepts come to life in the field. Written by a team of internationally recognized authors, the text introduces eight core competencies that are essential to outdoor leadership: Foundational knowledge, Self awareness and professional conduct, Decision making and judgment, Teaching and facilitation, Environmental stewardship, Program management, Safety and risk management, and Technical ability. The third edition of Outdoor Leadership effectively positions students to develop the knowledge and expertise required to excel as outdoor leaders. Along with updated references, learning activities, and chapter opening vignettes, the third edition offers the following new features:

- New content on intersectionality and the importance of universal design.
- A look at the contribution of outdoor recreation to the economy.
- An examination of transformative learning and updated material on interpretive programming.
- Expanded content on the importance of protecting ecological resources.

The text begins with the foundations of outdoor leadership: the historical and philosophical foundations of the profession and the nature of outdoor leadership as a professional practice. Historical and contemporary theories of leadership and the practical application of these theories are examined, facilitating a discussion of the roles that decision making and judgment play in real life. The text then explores the role of teaching and facilitation in outdoor leadership. Topics such as natural resource management, environmental sustainability, and program management, including program administration, safety and risk management, expedition planning, and program evaluation, are addressed. Each chapter opens with a vignette that illustrates the practical application of outdoor leadership concepts so that students recognize the importance of the material. Throughout the text, students are introduced to various types of organizations and agencies in which outdoor leaders work. Learning activities and professional development exercises within the text encourage readers to engage in a process of self reflection and to draw connections between theory and practice. Glossary, flashcards, and relevant forms are available via HKPropel. As students progress through the text, they will create a professional portfolio that demonstrates their competency and showcases their talents.

Outdoor Leadership Third Edition With HKPropel Access is the definitive text for developing student leadership in outdoor and adventure settings. This useful resource will help aspiring outdoor leaders plan safe, enjoyable, and ecologically responsible expeditions, acquire and showcase their leadership abilities, and develop knowledge and expertise. Note: A code for accessing HKPropel is included with this ebook.
