Kassian all of whom speak to the hearts of their sisters in Christ with a message about the greatness of God's created order and the part women play in His grand redemptive plan so that they may re-discover the beauty and wonder of their distinctive calling      The Power of Your Subconscious Mind, Revised and Expanded Edition Joseph Murphy, 2024-02-22 Examines the connection between the mental dynamics of thinking in relation to one's quality of life while offering simple techniques designed to create new more innovative thought processes and stimulate creativity Reissue      *Bulletin of the Atomic Scientists*, 1979-03      **Power, Agency, and Women in the Mission of God** Susan L. Maros, Vince L. Bantu, Kirsteen Kim, 2024-05-10 This volume fulfills the need for an accessible academic book that addresses the gender issues that women face as Christian disciples whether in formal leadership roles or engaging leadership in informal means and considers these issues in the context of world Christianity In an era in which mission is from everywhere to everywhere when local churches strive to be missional and when Christians are engaged in intercultural ministry this book invites a scholar practitioner conversation engaging multiple disciplines and perspectives to explore the role of women in the mission of God An interdisciplinary and intercultural conversation about women will enrich the church's ongoing effort to be faithful to God's call to women and men to participate in God's work in the world      Victorian Testaments Sue Zemka, 1997 Victorian Testaments examines the changing nature of biblical and religious authority during the first half of the Victorian period The book argues that these changes had a profound impact on concepts of cultural authority in general Among the figures discussed are Coleridge Thomas Arnold Ruskin Dickens Florence Nightingale and the missionaries of the British and

Foreign Bible Society In developing its picture of Victorian religious ideology the book analyzes major works of the period as well as works and documents that have received little critical attention Its methods are interdisciplinary building upon recent ideas in literary theory cultural criticism and gender studies The book proposes that changes in religious faith and Bible reading tended in two directions the one a celebration of spiritual individualism the other of the nuclear family As the credibility of a supernatural source for the scriptures diminished the need for certainty in moral and religious matters was increasingly filled by the importance attached to individual character Those Victorians who nurtured their individual character on Bible reading were understood to reveal the perfect spirit of the scriptures just as the scriptures themselves it seemed could no longer do so However the desire for religious heroes was counterpoised by another and highly sentimentalized model of the spiritual life one where religious authority was decentered across a social spectrum of fathers mothers and children In this second direction explored by the book a complex economy of spiritual power and authority is created by the distribution of sexual intellectual and affective attributes to figures who together constitute the nuclear family one might say the secular holy family By tracing these two narrative patterns the intellectual drama of the spiritual hero and the sentimental saga of the nuclear family the author demonstrates that the spirituality of many nineteenth century texts was not an allegory of transcendence so much as a by product of the narratives themselves A large scale cultural confrontation with the disappearance of God was to a certain extent deferred by narratives that picked up the slack in faith creating performances of sacred power with characters who demonstrated either an awesome religious interiority or a recognizably sentimental display of idealized femininity or childhood innocence
