## Operational savings and less downtime for commercial refrigeration users

*Reduce maintenance costs.*

Copeland Discus<sup>®</sup> semi-hermetic compressors have been the standard in the refrigeration industry for years, offering the most energy-efficient, reliable performance available in heavy-duty applications. Now this compressor offering has made another major advancement with CoreSense<sup>™</sup> Protection onboard, a breakthrough technology for commercial refrigeration systems. By using the Copeland Discus compressor as a sensor, CoreSense Protection monitors and interprets system and electrical information within the compressor, shutting it down before damage occurs. Copeland Discus with CoreSense Protection alerts technicians to the most serious faults first so they can accurately and rapidly correct problems and prevent catastrophic compressor failures that could suddenly generate product spoilage.
