Constitutional Futures Revisited R. Hazell, 2008-10-23 The UK is going through a period of unprecedented constitutional change There is much unfinished business and further changes still to come Where are these changes taking us In this book leading political scientists and lawyers forecast the impact of these changes on the UK s key institutions and the constitution as a whole *Constitutional Crises and Regionalism* Vito Breda, 2023-08-14 This informative book analyses regional constitutional crises where a large portion of residents no longer believe that the rule of law as defined by central institutions governs them Laying out a framework for effective governance in divided societies Vito Breda argues that peace and collaboration are linked to managing shared beliefs through constitutional law *The British Constitution* Anthony King, 2007 In the nineteenth century Walter Bagehot wrote a classic account of the British constitution as it had developed during Queen Victoria s reign arguing that it was not at all what people thought it was Anthony King argues that the same is true at the beginning of this century The author maintains that while the new British constitution is a mess there is no going back now Grappling with the thorniest issues facing the British polity head on he offers a trenchant analysis of the increasingly divergent relationship between England Scotland and Wales in the light of devolution and a devastating critique of the reformed House of Lords The book is a Bagehot for the 21st Century and essential reading for anyone with an interest in the nature and future of British political life **Public Law** Andrew Le Sueur, Andrew P. Le Sueur, Maurice Sunkin, Jo Eric Khushal Murkens, 2023 Public Law Text Cases and Materials offers a fresh approach to the study of constitutional and administrative law by exploring how the law works in practice The inclusion of extracts from key cases government reports and academic articles demonstrates the law in action and the incisive commentary that accompanies them explains the significance of each The expert authors have distilled their knowledge of the institutions and legal principles into concise focused prose and they encourage reflection through regular questions and hypothetical examples This leading text provides students with a thorough and wide ranging knowledge of public law together with a full understanding of the theoretical and political debates in this fascinating and dynamic area of law Digital formats and resources The fifth edition is available for students and institutions to purchase in a variety of formats and is supported by online resources The e book offers a mobile experience and convenient access along with functionality tools navigation features and links that offer extra learning support www.oxfordtextbooks.co.uk/ebooks The online resources that support the book include multiple choice questions with answer feedback for students to test their understanding *Negotiating a Settlement in Northern Ireland, 1969-2019* John Coakley, Jennifer Todd, 2020-01-09 Negotiating a Settlement in Northern Ireland From Sunningdale to St Andrews uses original material from witness seminars elite interviews and archive documents to explore the shape taken by the Irish peace process and in particular to analyse the manner in which successful stages of this were negotiated Northern Ireland s Good Friday Agreement of 1998 marked the end a 30 year conflict that had witnessed more than 3 000 deaths thousands of

injuries catastrophic societal damage and large scale economic dislocation This book traces the roots of the Agreement over the decades stretching back to the Sunningdale conference of 1973 and extending up to at least the St Andrews Agreement of 2006 It describes the changing relationship between parties to the conflict nationalist and unionist groups within Northern Ireland and the Irish and British governments and identifies three dimensions of significant change new ways of implementing the concept of sovereignty growing acceptance of power sharing and the steady emergence of substantial equality in the socio economic cultural and political domains As well as placing this in the context of an extensive social science literature the book innovates by looking at the manner in which those most closely involved understood the process in which they were engaged The authors reproduce testimonies from witness seminars and interviews involving central actors including former prime ministers ministers senior officials and political advisors They conclude that the outcome was shaped by a distinctive interaction between the conscious planning of these elites and changing demographic and political realities that themselves were in a symbiotic way consequences of decisions made in earlier years They also note the extent to which this settlement has come under pressure from new notions of sovereignty implicit in the Brexit process

The State of the Nations 2008 Alan Trench, 2017-05-24 The State of the Nations 2008 Into the third term of devolution in the United Kingdom is the sixth publication of a major research programme into devolution in the United Kingdom published on behalf of the Constitution Unit at University College London The focus of this volume is on the devolved elections of May 2007 analyzing the outcome in terms of both the immediate aftermath and longer term implications In particular it will consider influences on policy making finance the UK Parliament and the resolution of intergovernmental disputes This book replaces the previously announced volume The State of the Nations 2007

Policy Agendas in British Politics P. John, A. Bertelli, W. Jennings, S. Bevan, 2013-07-08 Using a unique dataset spanning fifty years of policy making in Britain this book traces how topics like the economy international affairs and crime have shifted in importance It takes a new approach to agenda setting called focused adaptation and sheds new light on key points of change in British politics such as Thatcherism and New Labour

Parliaments and Human Rights Murray Hunt, Hayley J Hooper, Paul Yowell, 2015-04-30 In many countries today there is a growing and genuinely held concern that the institutional arrangements for the protection of human rights suffer from a democratic deficit Yet at the same time there appears to be a new consensus that human rights require legal protection and that all branches of the state have a shared responsibility for upholding and realising those legally protected rights This volume of essays tries to understand this paradox by considering how parliaments have sought to discharge their responsibility to protect human rights Contributors seek to take stock of the extent to which national and sub national parliaments have developed legislative review for human rights compatibility and the effect of international initiatives to increase the role of parliaments in relation to human rights They also consider the relationship between legislative review and judicial review for human rights compatibility and whether courts could do more to incentivise better

democratic deliberation about human rights Enhancing the role of parliaments in the protection and realisation of human rights emerges as an idea whose time has come but the volume makes clear that there is a great deal more to do in all parliaments to develop the institutional structures processes and mechanisms necessary to put human rights at the centre of their function of making law and holding the government to account The sense of democratic deficit is unlikely to dissipate unless parliaments empower themselves by exercising the considerable powers and responsibilities they already have to interpret and apply human rights law and courts in turn pay closer attention to that reasoned consideration I believe that this book will be of enormous value to all of those interested in human rights in modern legislatures and the relationship between the two As this is absolutely fundamental to the character and credibility of democracy academic insight of this sort is especially welcome This is an area where I expect there to be an ever expanding community of interest From the Foreword by the Rt Hon John Bercow MP Speaker of the House of Commons

The English Constitution William Elliot Bulmer, 2025-09-02 What is England What is England's place in the United Kingdom or indeed outside it How should England be governed What constitutional foundations are needed to secure English democracy In this ground breaking book Dr W Elliot Bulmer makes the case for a written constitution for England Informed by comparative constitutional scholarship and by practical experience of constitution making around the world the book ties together debates on English national identity with discussion on the constitutional future of England It offers an English solution to the problem of the United Kingdom's constitutional disrepair and a constitutional solution to the problem of England's identity crisis Demonstrating that a written constitution both practical in the English context and compatible with the English constitutional tradition the book includes an example draft constitution inspired by Westminster Model democracies in the Commonwealth

Public Law: Text, Cases, and Materials 2e Andrew Le Sueur, Maurice Sunkin, Jo Murkens, 2013-03-21 This dynamic text cases materials book provides a thought provoking guide to the public law of the UK It sets out key institutions legal principles and conventions and its clear commentary draws on case studies and extracts from a range of sources to provide a full understanding of the law and the major theoretical and political debates
