Controlled Substances Crime Regulation And Policy:

Controlled Substances Alex Kreit, 2013 The new casebook by Alex Kreit *Illegal Drug and Marijuana Law* published in 2019 substantially revises and updates *Controlled Substances* Drug offenders are a ubiquitous part of our criminal justice system Approximately 1.5 million Americans were arrested for a drug offense in 2011 more than for any other single category of crime Drug convictions have fueled an explosion in our prison population with drug offenders constituting nearly one quarter of our prison population Indeed with the number of Americans incarcerated for a drug offense today larger than the entire United States prison and jail population in 1980 it would not be an exaggeration to say that the single most important development within the field of criminal law over the past four decades has been the war on drugs *Controlled Substances Crime Regulation and Policy* provides a comprehensive overview of the many fascinating issues of law and policy related to the criminalization and regulation of illegal drugs The book begins with materials on the debate about prohibition and its alternatives with a particular focus on the modern war on drugs model of prohibition After establishing this foundation the book turns its attention to the drug laws themselves taking an in depth look at controlled substances offenses drug sentencing and the investigation of drug crimes The book then considers the body of administrative law that governs the classification of controlled substances and the use and distribution of controlled substance for medical purposes Finally the book concludes with an overview of international and comparative issues in drug law *Illegal Drug and Marijuana Law* Alex Kreit, 2019-08-26

The Oxford Handbook of Criminal Law Markus D. Dubber, Tatjana Hörnle, 2014-11-27 The Oxford Handbook of Criminal Law reflects the continued transformation of criminal law into a global discipline providing scholars with a comprehensive international resource a common point of entry into cutting edge contemporary research and a snapshot of the state and scope of the field To this end the Handbook takes a broad approach to its subject matter disciplinarily geographically and systematically Its contributors include current and future research leaders representing a variety of legal systems methodologies areas of expertise and research agendas The Handbook is divided into four parts Approaches Methods I Systems Methods II Aspects Issues III and Contexts Comparisons IV Part I includes essays exploring various methodological approaches to criminal law such as criminology feminist studies and history Part II provides an overview of systems or models of criminal law laying the foundation for further inquiry into specific conceptions of criminal law as well as for comparative analysis such as Islamic Marxist and military law Part III covers the three aspects of the penal process the definition of norms and principles of liability substantive criminal law along with a less detailed treatment of the imposition of norms criminal procedure and the infliction of sanctions prison law Contributors consider the basic topics traditionally addressed in scholarship on the general and special parts of the substantive criminal law such as jurisdiction mens rea justifications and excuses Part IV places criminal law in context both domestically and transnationally by exploring the contrasts between criminal law and other species of law and state power and by investigating criminal law's place in the
