Constructivism George Rickey, 1969 *Constructivism* George Warren Rickey, 1983 *Constructivism: Origins and Evolution* by George Rickey George Rickey, 1968 **Pathways to the Origin and Evolution of Meanings in the Universe** Alexei A. Sharov, George E. Mikhailovsky, 2024-02-28

Pathways to the Origin and Evolution of Meanings in the Universe The book explains why meaning is a part of the universe populated by life and how organisms generate meanings and then use them for creative transformation of the environment and themselves This book focuses on interdisciplinary research at the intersection of biology semiotics philosophy ethology information theory and the theory of evolution Such a broad approach provides a rich context for the study of organisms and other semiotic agents in their environments This methodology can be applied to robotics and artificial intelligence for developing robust adaptable learning devices In this book leading interdisciplinary scholars reveal their vision on how to integrate natural sciences with semiotics a theory of meaning making and signification Developments in biology indicate that the capacity to create and understand signs is not limited to humans or vertebrate animals but exists in all living organisms the fact that inspired the integration of biology and semiotics into biosemiotics The authors discuss the nature of semiotic agents organisms and other autonomous goal directed units meaning signs information memory evolution and consciousness Also discussed are issues including the origin of life potential meaning and its actualization top down causality in physics and biology capacity of organisms to encode their functions the strategy of organisms to combine homeostasis with direct adaptation to new life cycle phases or new environments multi level memory systems increase of freedom via enabling constraints creative modeling in evolution and learning communication in animals and humans the origin and function of language and the distribution and transfer of life in space This is the first book on biosemiotics in its global conceptual and spatial scope Biosemiotics is presented using the language of natural sciences which supports the scientific grounding of semiotic terms Finally the cosmic dimension of life and meaning making leads to a reconsideration of ethical principles and ecological mentality here on earth and in space exploration Audience Theoretical biologists ethologists astrobiologists ecologists evolutionary biologists philosophers phenomenologists semioticians biosemioticians molecular biologists linguists system scientists and engineers **Conceiving God: The Cognitive Origin and Evolution of Religion** David Lewis-Williams, 2010-03-01 A controversial exploration of the origin of religion in the neurology of the human brain In this book the noted cognitive archaeologist David Lewis Williams confronts a question that troubles many people in the world today Is there a supernatural realm that intervenes in the material world of daily life and leads to the evolution of religions Professor Lewis Williams first describes how science developed within the cocoon of religion and then shows how the natural functioning of the human brain creates experiences that can lead to belief in a supernatural realm beings and interventions Once people have these experiences they formulate beliefs about them and thus creeds are born Forty thousand years ago people were leaving traces in the archaeological

record of activities that we can label religious and Lewis Williams discusses in detail the evidence preserved in the Volp Caves in France He also shows that mental imagery produced by the functioning of the human brain can be detected in widely separated religious communities such as Hildegard of Bingen's in medieval Europe or the San hunters of southern Africa

A History of Installation Art and the Development of New Art Forms Faye Ran, 2009 Art mirrors life life returns the favor How could nineteenth and twentieth century technologies foster both the change in the world view generally called postmodernism and the development of new art forms Scholar and curator Faye Ran shows how interactions of art and technology led to cultural changes and the evolution of Installation art as a genre unto itself a fascinating hybrid of expanded sculpture in terms of context site and environment and expanded theatre in terms of performer performance and public

The History and Evolution of Psychology Brian D. Cox, 2019-07-15 This book discusses key figures in history in the context of their time takes students on a carefully formulated chronological journey through the build up of psychology from ancient times to the present and seeks to draw students into the way science is done rather than merely presenting them with historical fact Students will learn not only the what but the why of the history of psychology and will acquire the necessary background historical material to fully understand those concepts Organized around a series of paradigms a shift from scholasticism to rationalism or empiricism and a shift from idealism to materialism the book seeks to portray psychology as an on going evolving process rather than a theory
