Research Abstracts ,1991 **The Education We Need for a Future We Can't Predict** Thomas Hatch,Jordan
Corson,Sarah Gerth van den Berg,2021-01-19 *Improve Schools and Transform Education* In order for educational systems to
change we must reevaluate deep seated beliefs about learning teaching schooling and race that perpetuate inequitable
opportunities and outcomes Hatch Corson and Gerth van den Berg challenge the narrative when it comes to the grammar of
schooling or the conventional structures practices and beliefs that define educational experiences for so many children to
cast a new vision of what school could be The book addresses current systemic problems and solutions as it Highlights global
examples of successful school change Describes strategies that improve educational opportunities and performance Explores
promising approaches in developing new learning opportunities Outlines conditions for supporting wide scale educational
improvement This provocative book approaches education reform by highlighting what works while also demonstrating what
can be accomplished if we redefine conventional schools We can make the schools we have more efficient more effective and
more equitable all while creating powerful opportunities to support all aspects of students development You won t find a
better book on system change in education than this one We learn why schools don t change how they can improve what it
takes to change a system and in the final analysis the possibilities of system change Above all The Education We Need

renders complexity into clarity as the writing is so clear and compelling A powerful read on a topic of utmost importance
Michael Fullan Professor Emeritus OISE University of Toronto I cannot recommend this book highly enough Tom tackles long
standing and emerging educational issues in new ways with an impressive understanding of the challenging complexities but
also feasible possibilities for ensuring excellence and equity for all students Carol Campbell Associate Professor Ontario
