Conversation Oral Tradition Systematics Traditions:

From Conversation to Oral Tradition Raymond F Person, 2015-11-19 This book argues that many of the most prominent features of oral epic poetry in a number of traditions can best be understood as adaptations or stylizations of conversational language use and advances the claim that if we can understand how conversation is structured it will aid our understanding of oral traditions In this study that carefully compares the special grammar of oral traditions to the grammar of everyday conversation as understood in the field of conversation analysis Raymond Person demonstrates that traditional phraseology including formulaic language is an adaptation of practices in turn construction in conversation such as sound selection of words and prosody and that thematic structures are adaptations of sequence organization in talk in interaction From this he concludes that the special grammar of oral traditions can be understood as an example of institutional talk that exaggerates certain conversational practices for aesthetic purposes and that draws from cognitive resources found in everyday conversation Person's research will be of interest to conversation analysts as well as literary scholars especially those interested in ancient and medieval literature the comparative study of oral traditions and folklore and linguistic approaches to literature This volume lays the groundwork for further interdisciplinary work bridging the fields of literature and linguistics

Oral Poetics and Cognitive Science Mihailo Antovic, Cristóbal Pagán Cánovas, 2016-08-22 What can oral poetic traditions teach us about language and the human mind Oral Poetics has produced insights relevant not only for the study of traditional poetry but also for our general understanding of language and cognition formulaic style as a product of rehearsed improvisation the thematic structuring of traditional narratives or the poetic use of features from everyday speech among many others The cognitive sciences have developed frameworks that are crucial for research on oral poetics such as construction grammar or conversation analysis The key for connecting the two disciplines is their common focus on usage and performance This collection of papers explores how some of the latest research on language and cognition can contribute to advances in oral studies At the same time it shows how research on verbal art in its natural oral medium can lead to new insights in semantics pragmatics or multimodal communication The ultimate goal is to pave the way towards a Cognitive Oral Poetics a new interdisciplinary field for the study of oral poetry as a window to the mind

Bridging the Gap Between Conversation Analysis and Poetics Raymond F. Person, Jr., Robin Wooffitt, John P. Rae, 2021-12-30 This collection extends the conversation beginning with Gail Jefferson's seminal 1996 article On the Poetics of Ordinary Talk linking the poetics of ordinary talk with the work of poets to bring together critical perspectives on new data from talk in interaction and applications of Jefferson's poetics to literary discourse Bringing together contributions from Conversation Analysis and literary scholars the book begins by analyzing the presentation which served as the genesis for Jefferson's article to highlight the occurrence of poetics in institutional talk The first section then provides an in depth examination of case studies from Conversation Analysis which draw on new data from naturally occurring discourse The second half

explores literary poetics as a form of institutional talk emerging from the poetics of ordinary talk offering new possibilities for interpreting work in classics biblical studies folklore studies and contemporary literature Each chapter engages in a discussion of Jefferson's article toward reinforcing the relationships between the two disciplines and indicating a way forward for interdisciplinary scholarship The collection highlights the enduring influence of Jefferson's poetics to our understanding of language both talk in interaction and literary discourse making this book of particular interest to students and researchers in Conversation Analysis literary studies stylistics and pragmatics

Orality and Narration. Performance and Mythic-Ritual Poetics in the Ancient World, 2025-08-21 Myths can be defined as traditional stories that societies pass on from generation to generation constantly reinventing and reshaping them through oral written or visual representations Rituals and cults on the other hand are the festive celebrations that punctuate social life providing the occasion for the community to perform and reflect on mythic stories or mimetic plays about or by gods and heroes How do then the recent advances in narratology sociolinguistics and anthropology lead us to reconsider the complex relationships between myth and ritual in ancient traditional societies both literate and non literate The papers in this groundbreaking volume explore and compare these dynamic interactions across diverse cultures including archaic and classical Greece the ancient Near East and imperial Rome

The Dictionary of the Bible and Ancient Media Tom Thatcher, Chris Keith, Raymond F. Person, Jr., Elsie R. Stern, 2017-10-19 The Dictionary of the Bible and Ancient Media is a convenient and authoritative reference tool introducing specific terms and concepts helpful to the study of the Bible and related literature in ancient communications culture Since the early 1980s biblical scholars have begun to explore the potentials of interdisciplinary theories of oral tradition oral performance personal and collective memory ancient literacy and scribality visual culture and ritual Over time these theories have been combined with considerations of critical and exegetical problems in the study of the Bible the history of Israel Christian origins and rabbinics The Dictionary of the Bible and Ancient Media responds to the rapid growth of the field by providing a source of reference that offers clear definitions and in depth discussions of relevant terms and concepts and the relationships between them The volume begins with an overview of ancient media studies and a brief history of research to orient the reader to the field and the broader research context of the book with individual entries on terms and topics commonly encountered in studies of the Bible in ancient media culture Each entry defines the term concept under consideration then offers more sustained discussion of the topic paying particular attention to its relevance for the study of the Bible and related literature

Empirical Models Challenging Biblical Criticism Raymond F. Person, Robert Rezetko, 2016-09-21 Cutting edge reflections on biblical text formation Empirical models based on ancient Near Eastern literature and variations between different textual traditions have been used to lend credibility to the identification of the sources behind biblical literature and the different editorial layers In this volume empirical models are used to critique the exaggerated results of identifying sources and editorial layers by demonstrating that even though much of ancient literature

had such complex literary histories our methods are often inadequate for the task of precisely identifying sources and editorial layers The contributors are Maxine L Grossman B n dicte Lemmelijn Alan Lenzi Sara J Milstein Raymond F Person Jr Robert Rezetko Stefan Schorch Julio Treballe Barrera Ian Young and Joseph A Weak Features Evidence that many ancient texts are composite texts with complex literary histories Ten essays and an introduction cover texts from Mesopotamia the Hebrew Bible the New Testament and the Dead Sea Scrolls Vision, Narrative, and Wisdom in the Aramaic Texts from Qumran Mette Bundvad, Kasper Siegmund, 2019-09-24 The Aramaic Dead Sea Scrolls from Qumran have attracted increasing interest in recent years These texts predate the sectarian Dead Sea scrolls and they are contemporary with the youngest parts of the Hebrew Bible They offer a unique glimpse into the situation before the biblical canons were closed Their highly creative Jewish authors reshaped and rewrote biblical traditions to cope with the concerns of their own time The essays in this volume examine this fascinating ancient literature from a variety of different perspectives The book grew out of an international symposium held at the University of Copenhagen in August 2017 **Scribal Memory and Word Selection** Raymond F. Person Jr., 2023-07-21 What were ancient scribes doing when they copied a manuscript of a literary work This question is especially problematic when we realize that ancient scribes preserved different versions of the same literary texts In *Scribal Memory and Word Selection* Text Criticism of the Hebrew Bible Raymond F Person Jr draws from studies of how words are selected in everyday conversation to illustrate that the same word selection mechanisms were at work in scribal memory Using examples from manuscripts of the Hebrew Bible Person provides new ways of understanding the cognitive linguistic mechanisms at work during the composition transmission of texts Person reveals that while our modern perspective may consider textual variants to be different literary texts from the perspective of the ancient scribes and their audiences these variants could still be understood as the same literary text *Conversing with God* Terry Giles, 2022-04-01 Talk is essential to human social life Through conversation we form friendships share dreams and hopes and develop a common outlook on the world around us Talk with God can achieve the same thing This book examines the conversational prayers in the Hebrew Bible their structure and content to understand how talk with God forms friendship shares dreams and hopes and develops a Divine human outlook on the world Conversation forces the petitioner to surrender control of the encounter and become susceptible to unscripted give and take with the Divine Conversation with God is always a risk but the rewards can be great Through conversation Abraham and Moses became friends with God The same can be true for us

Repetition, Communication, and Meaning in the Ancient World , 2021-09-13 This volume features an international group of experts on the literature philosophy and religion of the ancient Mediterranean world Each paper makes a unique contribution and together the papers draw an engaging portrait of the idea of repetition
