Conversations With Green Gurus The Collective Wisdom Of Environmental Movers And Shakers:

Conversations with Green Gurus Laura Mazur, Louella Miles, 2009-08-27 The collected wisdom of some of the world's most influential environmental movers and shakers is brought together in this one book. The chosen gurus consist both of thinkers (those who have set the agenda) and of doers (those business people who made the green cause their mission long before it became so prominent). The book covers a broad range of environmental issues as they apply to business, including the economic viability of choosing green routes. Interviewees include energy guru Amory Lovins, former Friends of the Earth Vice Chair Tony Juniper, diplomat Sir Crispin Tickell, and business leader Ray Anderson among others. The cutting edge thinking of the book's contributors provides businesses with the information they need when considering how to change in a green direction. The end result is an illuminating insight into both general views on sustainability as well as good and bad business decisions made in the search for sustainability. The full list of green gurus includes Ray Anderson, founder and chairman of Interface Inc, one of TIME Magazine's Heroes of the Environment; James Cameron, founder of Executive Director and Vice Chairman of Climate Change Capital CCC; Paul Dickinson, CEO of the Carbon Disclosure Project; John Elkington, founding partner and director of Volans; co-founder of SustainAbility; world authority of sustainable development; author of The Green Consumer Guide; John Grant, author of The Green Marketing Manifesto, frequent conference speaker and prolific blogger; Denis Hayes, President and CEO of The Bullitt Foundation; Chair of the International Earth Day Network; Gary Hirshberg, President and Chief Executive Officer of Stonyfield Farm, the world's largest producer of organic yogurt; Tony Juniper, former Executive Director of Friends of the Earth (FoE), environmental campaigner, author and commentator; Professor Sir David King, Director of the Smith School of Enterprise and the Environment at the University of Oxford; Amory B. Lovins, environmentalist, Chairman and Chief Scientist of Rocky Mountain Institute; Professor Wangari Maathai, environmental and political activist, Nobel Peace Prize Winner; Ricardo Navarro, founder and director of the Salvadoran Centre for Appropriate Technology, CESTA winner of the prestigious Goldman prize; Dr Vandana Shiva, physicist, environmental activist and author; Jeffrey Swartz, CEO of Timberland Worldwide; Sir Crispin Tickell, diplomat, academic, environmentalist, author. **Environmental**

Leadership Deborah Rigling Gallagher, 2012-09-19 This reference handbook tackles issues relevant to leadership in the realm of the environment and sustainability. **Rockefeller** Jacob Nordangård, 2024-04-02 Why would the first family of oil so ardently support environmental climate research and activism? Join author and researcher Jacob Nordangård as he uncovers the whole sordid truth. The Rockefeller family is one of the richest in the world. Yet why would the family that made the world dependent on oil fund environmental and climate research since the 1950s, help shape climate policy measures since the 1980s, and supported climate activism since the 1990s? Rockefeller: Controlling the Game is the thrilling and paradoxical story of one of the world's most influential global players. Through its top position in American business, close contacts with the White House, and with their immense financial power as one of the world's leading private research funders

the Rockefellers have been able to anchor the climate issue both scientifically and politically Yet what is the reasoning behind doing so Author and researcher Jacob Nordang rd follows the family from the founding of Standard Oil and the Rockefeller Foundation up through the aftermath of the Paris Agreement with the declaration of the Fourth Industrial Revolution in January 2016 to the present day Nordang rd s in depth research includes the large quantities of new material recently made available on the Internet as well as the Rockefeller Foundation s own annual reports Nordang rd s main focus is the Rockefeller family s involvement in climate research and politics but the actions and motives of some of their allies are also explored as well as the family s influence on the development of modern medicine family planning agriculture art architecture behavioral science information technology and politics The Rockefeller family s utopian dream of a perfect world will have serious consequences for the survival of the human species and life as we know it The Rockefeller Foundation s stated mission to promote the well being of humanity throughout the world has a dark flipside as Nordang rd will prove the Rockefeller family s long standing battle against climate change contains elements of sophisticated propaganda techniques futurism and New Age philosophy aiming at a complete transformation of the whole earth system including economy ecology culture and even humanity itself

Radical Utu Besi Brilliant Muhonja,2020-06-09 Wangari Muta Maathai was a scholar activist known for founding the Green Belt Movement an environmental campaign that earned her the Nobel Peace Prize While many studies of Maathai highlight her activism few examine Maathai as a scholar whose contributions to various disciplines and causes spanned more than three decades In *Radical Utu Critical Ideas and Ideals of Wangari Muta Maathai* Besi Brilliant Muhonja presents the words and works of Maathai as theoretical concepts attesting to her contributions to gender equality democratic spaces economic equity and global governance and indigenous African languages and knowledges Muhonja s well rounded portrait of Maathai s ideas offers a corrective to the one dimensional characterization of Maathai typical of other works
