

2.0 Introduction to the Emerson outdoor refrigeration condensing unit

Emerson Climate Technologies, a Division of Emerson Electric Ltd, launched the ZX Condensing Unit (CU), a new refrigeration product to the Asian market to primarily meet the demands of the food retail services and logistics sector. The ZX CU is an air-cooled, outdoor-type refrigeration condensing unit that uses patented Copeland scroll technology as the main driver and has electronic protection, diagnostics and communication features built into the compact chassis.

Fig 1. Single Fan Unit
(ZX 200, ZX 300 & ZX 400)

2.1 Product Descriptions

The application range of the Emerson ZX CU is between:

- -18°C to 51°C Evaporating Temperature and
- 27°C and 43°C Ambient (without Fan Speed Control).

This CU is released with both R22 and R404A refrigerants. The single fan units are ZX 200, ZX 300 and ZX 400 (2, 3 and 4 hp nominal ARI Medium Temperature) and the dual fan units are ZX 500, ZX 600 and ZX 750 (5.6 and 7.5 hp nominal ARI MT). These CUs are built for robust outdoor applications and have excellent wall-mounting capability and aesthetics, much like air conditioning split outdoor units.

The Copeland brand scroll compressors that power these CUs are manufactured in Asia, ensuring a low-cost high-technology approach to suit the needs of demanding Asian customers. The ZX is therefore a very affordable unit.

When the large coil- small fan design is combined with in-built (but optional) fan speed control, the ZX is one of the quietest refrigeration CUs in the market.
