Collection Management Basics G. Edward Evans, Margaret Zarnosky Saponaro, 2012 Now thoroughly revised for today's 21st century library environment this title provides a complete update of the classic Developing Library and Information Center Collections the standard text and authority on collection development for all types of libraries and library school students since 1979 The well established gold standard for teaching collection development this text provides current and thorough coverage to all of the processes and issues surrounding managing library collections This latest edition continues to cover all aspects of collection development and management including subjects such as needs assessment policies selection process theory and practice protection legal issues censorship and intellectual freedom The book represents a total restructuring of the previous work and reflects changes brought on by new technology and the up and down economy Students and practitioners alike will benefit greatly from this up to date and essential text *Collection Management Basics* Margaret Zarnosky Saponaro, G. Edward Evans, 2019-05-24 If the heart of the library is its collection this textbook provides the keys to the heart of your library Alongside standards of basic principles and processes you'll find practical guidance on everything from acquisitions to preservation Managing collections in today's libraries is more complicated and challenging than ever Electronic formats new options for collaboration and sharing and the drive to use data for evaluation purposes are just a few of the changes now driving collection management This updated edition of a classic text addresses changes in the field and provides a thorough overview of what collection development specialists now need to know to effectively and efficiently manage processes that range from selection and assessment to sharing resources handling challenges weeding and preservation Readers will find increased coverage of technical services intellectual freedom and censorship and collection policy development as well as budget development and tracking joint purchasing and negotiating with vendors Updates on e resources user needs assessment including data visualization and disaster management along with suggestions for further reading are also included Engagingly written and easy to understand this is a valuable text for students preparing for careers in public academic school and special libraries It will additionally serve as a training resource and professional refresher for practitioners *Library and Information Science* Michael F. Bemis, 2014-03-03 This unique annotated bibliography is a complete up to date guide to sources of information on library science covering recent books monographs periodicals and websites and selected works of historical importance In addition to compiling an invaluable list of sources Bemis digs deeper examining the strengths and weaknesses of key works A boon to researchers and practitioners alike this bibliography Includes coverage of subjects as diverse and vital as the history of librarianship its development as a profession the ethics of information science cataloging reference work and library architecture Encompasses encyclopedias dictionaries directories photographic surveys statistical publications and numerous electronic sources all categorized by subject Offers appendixes detailing leading professional organizations and publishers of library and information science literature This

comprehensive bibliography of English language resources on librarianship the only one of its kind will prove invaluable to scholars students and anyone working in the field *The Complete Guide to Acquisitions Management* Frances C. Wilkinson, Linda K. Lewis, Rebecca L. Lubas, 2015-07-28 Updated and enhanced the second edition of this text provides both library students and practitioners with a thorough understanding of procedural and philosophical approaches in acquisitions management Since the last edition of this text was published over a decade ago library acquisitions practices have changed dramatically in response to economic and industry changes and the introduction and maturation of new technologies An essential tool kit this updated edition covers every aspect of current acquisitions management from organization of acquisitions departments to professional ethics The step by step guide takes you through acquisitions department activities from the beginning of the ordering process through making materials available to the public You ll learn about the latest acquisitions systems negotiating bids and RFPs gifts and exchange and decisions of permanence In addition the book provides expert guidance on relationships with vendors as well as on the publishing industry in general Key among the updates to this second edition is information about major changes that have occurred recently including what s new in integrated library systems electronic resource management and patron and demand driven acquisitions An appendix offers a wealth of resources on topics related to acquisitions and includes a comprehensive glossary Where Do We Go From Here? Beth R. Bernhardt, Leah H. Hinds, Katina P. Strauch, 2016-11-15 Over one hundred presentations from the 35th annual Charleston Library Conference held November 4 7 2015 are included in this annual proceedings volume Major themes of the meeting included streaming video analysis and assessment demand driven acquisition the future of university presses and open access publishing While the Charleston meeting remains a core one for acquisitions librarians in dialog with publishers and vendors the breadth of coverage of this volume reflects the fact that this conference is now one of the major venues for leaders in the publishing and library communities to shape strategy and prepare for the future Almost 1 800 delegates attended the 2015 meeting ranging from the staff of small public library systems to the CEOs of major corporations This fully indexed copyedited volume provides a rich source for the latest evidence based research and lessons from practice in a range of information science fields The contributors are leaders in the library publishing and vendor communities *Introduction to Cataloging and Classification* Daniel N. Joudrey, Arlene G. Taylor, David P. Miller, 2015-09-29 A new edition of this best selling textbook reintroduces the topic of library cataloging from a fresh modern perspective Not many books merit an eleventh edition but this popular text does Newly updated *Introduction to Cataloging and Classification* provides an introduction to descriptive cataloging based on contemporary standards explaining the basic tenets to readers without previous experience as well as to those who merely want a better understanding of the process as it exists today The text opens with the foundations of cataloging then moves to specific details and subject matter such as Functional Requirements for Bibliographic Records FRBR Functional Requirements for Authority Data FRAD the International Cataloging Principles

ICP and RDA Unlike other texts the book doesn't presume a close familiarity with the MARC bibliographic or authorities formats ALA's Anglo American Cataloging Rules 2nd Edition revised AACR2R or the International Standard Bibliographic Description ISBD Subject access to library materials is covered in sufficient depth to make the reader comfortable with the principles and practices of subject cataloging and classification In addition the book introduces MARC BIBFRAME and other approaches used to communicate and display bibliographic data Discussions of formatting presentation and administrative issues complete the book questions useful for review and study appear at the end of each chapter

Reference and Information Services Melissa A. Wong, Laura Saunders, 2020-05-04 This revised and updated sixth edition of Reference and Information Services continues

the book's rich tradition covering all phases of reference and information services with less emphasis on print and more emphasis on strategies and scenarios. Reference and Information Services is the go-to textbook for MSLIS and i School courses on reference services and related topics. It is also a helpful handbook for practitioners. Authors include LIS faculty and professionals who have relevant degrees in their areas and who have published extensively on their topics. The first half of the book provides an overview of reference services and techniques for service provision including the reference interview, ethics instruction, reader's advisory, and services to diverse populations including children. This part of the book establishes a foundation of knowledge on reference service and frames each topic with ethical and social justice perspectives. The second part of the book offers an overview of the information life cycle and dissemination of information followed by an in-depth examination of information sources by type including dictionaries, encyclopedias, indexes, and abstracts as well as by broad subject areas including government statistics and data, health, and legal information. This second section introduces the tools and resources that reference professionals use to provide the services described in the first half of the text.

Internet Technologies and Information Services Joseph B. Miller, 2014-08-26. The Internet has enabled the convergence of all things information-related. This book provides essential foundational knowledge of the application of Internet and web technologies in the information and library professions. Internet Technologies and Information Services, Second Edition, is a vital asset to students preparing for careers in library and information science and provides expanded coverage to important new developments while still covering Internet foundations. In addition to networking, the Internet, HTML, web design, web programming, XML, and web searching, this new edition covers additional topics such as cloud computing, content management systems, eBook technologies, mobile technologies, and applications, relational database management systems, RDMS, open source software, and virtual private networking. It also provides information on virtualization and related systems including desktop virtualization systems. With clear and simple explanations, the book helps students form a solid basic IT knowledge that prepares them for more advanced studies in technology. It supplies an introductory history of the Internet and an examination of current trends with specific emphasis on how online information access affects the LIS fields. Author Joseph B. Miller. MSLIS explains Internet protocols and current broadband connectivity options, Internet security issues, and steps to take to block threats, building the web with markup languages, programming, and content management systems, and elements of information access on the web, content formats, information retrieval, and Internet search.
