Enlightenment C. B. Bow, 2018-04-20 Common sense philosophy was one of eighteenth century Scotland's most original intellectual products It developed as a viable alternative to modern philosophical scepticism known as the Ideal Theory or the way of ideas The nine specially written essays in this volume explore the philosophical and historical significance of common sense philosophy in the Scottish Enlightenment Thomas Reid and David Hume feature prominently as influential authors of competing ideas in the history and philosophy of common sense The contributors recover anticipations of Reid's version of common sense in seventeenth century Scottish scholasticism reevaluate Reid's position in the realism versus sentimentalism dichotomy shed new light on the nature of the constitution in the anatomy of the mind identify changes in the nature of sense perception throughout Reid's published and unpublished works examine Reid on the non theist implications of Hume's philosophy show how polite literature shaped James Beattie's version of common sense reveal Hume's response to common sense philosophers explore English criticisms of the Scottish school and how Dugald Stewart's refashioning of common sense responded to a new age and the British reception of German Idealism In recovering the ways in which Scottish common sense philosophy developed during the long eighteenth century this volume takes an important step toward a more complete understanding of the Scottish philosophy and British philosophy more broadly in the age of Enlightenment **The Making**

of American Liberal Theology Gary J. Dorrien, 2001-01-01 This text identifies the indigenous roots of American liberal theology and uncovers a wider longer running tradition than has been thought Taking a narrative approach the text provides a biographical reading of important religious thinkers of the time *The Illusion of Will, Self, and Time* Jonathan Bricklin, 2015-06-01 Discusses how William James's work suggests a world without will self or time and how research supports this perspective William James is often considered a scientist compromised by his advocacy of mysticism and parapsychology Jonathan Bricklin argues James can also be viewed as a mystic compromised by his commitment to common sense James wanted to believe in will self and time but his deepest insights suggested otherwise Is consciousness already there waiting to be uncovered and is it a veridical revelation of reality James asked shortly before his death in 1910 A century after his death research from neuroscience physics psychology and parapsychology is making the case both theoretically and experimentally that answers James's question in the affirmative By separating what James passionately wanted to believe based on common sense from what his insights and researches led him to believe Bricklin shows how James himself laid the groundwork for this more challenging view of existence The non reality of will self and time is consistent with James's psychology of volition his epistemology of self and his belief that Newtonian objective even flowing time does not exist

Social Ethics in the Making Gary Dorrien, 2011-04-06 In the early 1880s proponents of what came to be called the social gospel founded what is now known as social ethics This ambitious and magisterial book describes the tradition of social ethics one that began with the distinctly modern idea that Christianity has a social ethical mission to transform the structures of society in the direction of social justice Charts the story of social ethics the idea that Christianity has a social ethical mission to transform society from its roots in the nineteenth century through to the present day Discusses and analyzes how different traditions of social ethics evolved in the realms of the academy church and general public Looks at the wide variety of individuals who have been prominent exponents of social ethics from academics and self-styled public intellectuals through to pastors and activists Set to become the definitive reference guide to the history and development of social ethics Recipient of a CHOICE Outstanding Academic Title for 2009 award

Bioethics Nancy Ann Silbergeld Jecker, Albert R. Jonsen, Robert A. Pearlman, 2007 Legal Ethics *Economy, Difference, Empire* Gary J. Dorrien, 2010 Sourcing the major traditions of progressive Christian social ethics social gospel liberalism Niebuhrian realism and liberation theology Gary Dorrien argues for the social ethical necessity of social justice politics In carefully reasoned essays he focuses on three subjects the ethics and politics of economic justice racial and gender justice and antimilitarism making a constructive case for economic democracy along with a liberationist understanding of racial and gender justice and an anti-imperial form of liberal internationalism In Dorrien's view the three major discourse traditions of progressive Christian social ethics share a fundamental commitment to transform the structures of society in the direction of social justice His reflections on these topics feature innovative analyses of major figures such as Walter Rauschenbusch Reinhold Niebuhr James Burnham Norman Thomas and Michael Harrington and an extensive engagement with contemporary intellectuals such as Rosemary R. Ruether Katie Cannon Gregory Baum and Cornel West Dorrien also weaves his personal

experiences into his narrative especially his involvement in social justice movements He includes a special chapter on the 2008 presidential campaign and the historic candidacy of Barack Obama Sciousness Jonathan Bricklin, 2006 James s notion of sciousness or pure experience is akin to Zen tathata suchness Japan s renowned philosopher Kitaro Nishida in fact used James s concept to explain tathata to the Japanese themselves As this collection of essays makes clear Western practioners of Zen and other nondual practices need not be spiritual vagabonds We need rather to claim our inheritance from the father of American psychology
