Fire and Snow Marc DiPaolo, 2018-08-01 A broad examination of climate fantasy and science fiction from *The Lord of the Rings* and the *Narnia* series to *The Handmaid's Tale* and *Game of Thrones* Fellow Inklings J.R.R. Tolkien and C.S. Lewis may have belonged to different branches of Christianity but they both made use of a faith-based environmentalist ethic to counter the mid twentieth century's triple threats of fascism utilitarianism and industrial capitalism In *Fire and Snow* Marc DiPaolo explores how the apocalyptic fantasy tropes and Christian environmental ethics of the Middle earth and *Narnia* sagas have been adapted by a variety of recent writers and filmmakers of climate fiction a growing literary and cinematic genre that grapples with the real world concerns of climate change endless wars and fascism as well as the role religion plays in easing or escalating these apocalyptic level crises Among the many other well known climate fiction narratives examined in these pages are *Game of Thrones* *The Hunger Games* *The Handmaid's Tale* *Mad Max* and *Doctor Who* Although the authors of these works stake out ideological territory that differs from Tolkien's and Lewis's DiPaolo argues that they nevertheless mirror their predecessors

ecological concerns The Christians Jews atheists and agnostics who penned these works agree that we all need to put aside our cultural differences and transcend our personal socioeconomic circumstances to work together to save the environment Taken together these works of climate fiction model various ways in which a deep ecological solidarity might be achieved across a broad ideological and cultural spectrum This book is remarkably diverse in its literary cinematic journalistic and graphics media sources and the writing is equally authoritative in all these domains DiPaolo s prose moves deftly from a work of fiction to its film avatar to the political and societal realities they address and back again into other cultural manifestations and then into and out of the deep theory of climate fiction literary scholarship ecofeminism religious tradition and authorial biographies It contributes considerably to all of these fields and is indispensable for climate and environmental literature classes It s also a must have for general readers of the genre Jonathan Evans coauthor of Ents Elves and Eriador The Environmental Vision of J R R Tolkien I like it No I love it This book is both broad and deep and yet it remains both very readable and constantly interesting It s the sort of book that can only be written by someone who is a good reader of both books and culture As I was reading it I thought this is like being at a party and meeting someone brilliant and fun and finding that I m enjoying that person s company so much that I don t notice the time flying by It s not often that a scholarly book does that to me David O Hara Augustana University Teaching Children Online Carla Meskill, Natasha Anthony, 2018-11-20 What does best practice in online education look like How can educators make use of the affordances offered by online environments to bring out the best in the children they teach These questions are answered in this new textbook written with experienced teachers novice educators and teacher educators in mind Meskill and Anthony offer a wealth of examples of what successful online teaching looks like and provide a rich source of practical conversation based strategies for optimizing online learning This book will inspire anyone teaching or planning to teach fully online or in a blended or hybrid format by demonstrating how well constructed online conversations constitute powerful teaching **The Birth Book, 2nd Edition** Professor Stephen Tong, 2024-04-03 Everything You Need to Know to Prepare for Labour and Birth The Birth Book is the ultimate guide for expectant parents to be From one of Australia s leading obstetricians this best selling book combines expert information real stories and up to date research to earn its reputation as the essential birth bible Packed with vital information the stages of labour modern pain relief options vaginal birth inducing labour caesareans monitoring the baby and post birth recovery your birth options are expertly explained and demystified With new chapters examining birthing of twins and options for those who have previously had a caesarean section The Birth Book simplifies complex medical information to transform childbirth anxiety into empowerment Professor Stephen Tong has guided thousands of births and is renowned as a leading specialist obstetrician in Australia and internationally He steers global research programs chasing discoveries to make pregnancy and birth safer for mothers and babies His mission is to prepare you for an informed confident and safe birth experience A warm wonderful and reassuring birth day companion Praise for The Birth Book From Mums Stephen s
