That is the mission of this Handbook. It provides both producers and consumers of school consultation with an invaluable snapshot of its current boundaries and rapidly growing content. Key features of this outstanding new book include the following research-oriented, whereas many books dealing with school consultation practice have appeared over the last decade, none has attempted to provide a comprehensive review of research findings and methods supporting its growing body of evidence-based practice. Commentary chapters: commentary chapters written by leading scholars provide integrative critiques of the book's three major sections. This book is intended for researchers, graduate students, and practitioners in school psychology and related human service disciplines, including special education, counselor education, counseling psychology, and school social work.
