the goals of those they were backing making disengagement more difficult Maurer discusses how all the way through the 1970s the United States not only failed to resist pressure to defend American investments but also remained unsuccessful at altering internal institutions of other countries in order to make property rights secure in the absence of active American involvement Foreign nations expropriated American investments but in almost every case the U S government s employment of economic sanctions or covert action obtained market value or more in compensation despite the growing strategic risks The advent of institutions focusing on international arbitration finally gave the executive branch a credible political excuse not to act Maurer cautions that these institutions are now under strain and that a collapse might open the empire trap once more With shrewd and timely analysis this book considers American patterns of foreign intervention and the nation s changing role as an imperial power
