Local Places, Global Processes Peter Coates, David Moon, Paul Warde, 2016-02-29 We live in an age of unprecedented environmental change

global interconnected and universal Yet though our lives are inextricably connected to global processes and increasingly mobile we still live in particular places Our perceptions of change and what kind of change might be for good or ill are shaped by the interaction of localised experience and the wider forces of transformation Local Places Global Processes examines how these relationships have been shaped in Britain over time in three ways First through essays addressing influential ways of understanding and debating questions of the state of nature These are complemented by case studies on conservation landscape change and management and how perceptions of environmental change have emerged or been discarded over time Chapters also draw on a series of site based workshops that brought together historians landscape managers and artists to discuss and reflect on particular sites Wicken Fen in Cambridgeshire owned by the National Trust and the first British nature reserve the Quantock Hills Area of Outstanding Natural Beauty in Somerset England s first AONB and a landscape enriched by Romantic association and the landscape of Kielder Water and Forest a land of superlatives in Northumberland in north eastern England the largest planted forest and artificial lake in northern Europe The multi disciplinary approach draws together the exchanges artworks and writing assembled at these workshops and afterwards This opens up how being in a place and engaging with ideas attached to it shape perceptions of the environment It provides resources with which landscape managers can think about their tasks and engage various publics in discussion about future environments in light of these histories of place Rather than a history of these three places this is history written from them

Adventures of a Young Naturalist David Attenborough, 2025-08-14 WITH A NEW FOREWORD BY DARA McANULTY THE SUNDAY TIMES BESTSELLER His writing is as impressive and as enjoyable as his TV programmes and there can be no higher praise Daily Express A marvellous book unputdownable utterly engaging Daily Telegraph In 1954 a young television presenter named David Attenborough was offered the opportunity of a lifetime to travel the world finding rare and elusive animals for London Zoo s collection and to film the expeditions for the BBC Now the greatest living advocate of the global ecosystem this is the story of the voyages that started it all Staying with local tribes while trekking in search of giant anteaters in Guyana Komodo dragons in Indonesia and armadillos in Paraguay he and the rest of the team battled with cannibal fish aggressive tree porcupines and escape artist wild pigs as well as treacherous terrain and unpredictable weather to record the incredible beauty and biodiversity of these regions The methods may be outdated now but the fascination and respect for the wildlife the people and the environment and the importance of protecting these wild places is not Written with his trademark wit and charm Adventures of a Young Naturalist is not just the story of a remarkable adventure but of the man who made us fall in love with the natural world and who is still doing so today Praise for Sir David Attenborough A great educator as well as a great naturalist Barack Obama Sir David is a wizard of television and like Gandalf or Dumbledore he has a near magical gift for combining warmth and gravitas the man who for me exemplifies the best in British broadcasting Louis Theroux When I was a young boy I used to love turning on the television and watching David s programmes and really

feeling like I was either back out in Africa or I was learning about something magical and almost out of this planet Prince William

Journeys to the Other Side of the World David Attenborough, 2018-09-06 With charm erudition humour and passion the world's favourite natural history broadcaster documents some of his expeditions from the late 1950s onwards Sunday Express Following the success of the original Zoo Quest expeditions the young David Attenborough embarked on further travels in a very different part of the world From Madagascar and New Guinea to the Pacific Islands and the Northern Territory of Australia he and his cameraman companion were aiming to record not just the wildlife but the way of life of some of the indigenous people of these regions whose traditions had never been encountered by most of the British public before From the land divers of Pentecost Island and the sing sings of New Guinea to a Royal Kava ceremony on Tonga and the ancient art of the Northern Territory it is a journey like no other Alongside these remarkable cultures he encounters paradise birds chameleons sifakas and many more animals in some of the most unique environments on the planet Written with David Attenborough's characteristic charm humour and warmth Journeys to the Other Side of the World is an inimitable adventure among people places and the wildest of wildlife Abundantly good TLS A wondrous reminder of Attenborough's pioneering role full of delightful tales Daily Express An adventure that sparked a lifetime's commitment to the planet The Lady Attenborough is a fine writer and storyteller Irish Times

Australian Rainforest Woods Morris Lake, 2015-05-25 Australian Rainforest Woods describes 141 of the most significant Australian rainforest trees and their wood The introductory sections draw the reader into an understanding of the botanical evolutionary environmental historical and international significance of this beautiful but finite Australian resource The main section examines the species and their wood with photographs botanical descriptions and a summary of the characteristics of the wood A section on wood identification includes fundamental information on tree growth and wood structure as well as images of the basic characteristics With more than 900 colour images this is the most comprehensive guide ever written on Australian rainforest woods both for the amateur and the professional wood enthusiast It is the first time that macrophotographs of the wood have been shown in association with a physical description of wood characteristics which will aid identification This technique was developed by Jean Claude Cerre France and his macrophotographs are included in the book
