, Die Weltenschöpfer - Band 2 Charles Platt, 2022-05-20 Der zweite Band der drei Bände umfassenden Reihe präsentiert zwanzig der fast sechzig Essays die auf Charles Platts Gesprächen mit bedeutenden SF Persönlichkeiten basieren Die Texte entstanden zwischen 1978 und 1982 und werden nun erstmals vollständig auf Deutsch vorgelegt In zahlreichen zusätzlichen Texten und Ergänzungen die Charles Platt jetzt vier Jahrzehnte später exklusiv für diese deutsche Ausgabe verfasst hat erzählt er weitere Anekdoten und persönliche Erinnerungen an seine Gesprächspartner In Band 2 Gespräche mit Ray Bradbury Frank Herbert Kate Wilhelm Damon Knight Michael Moorcock J G Ballard E C Tubb Ian Watson John Brunner Gregory Benford Robert Silverberg Brian W Aldiss Jerry Pournelle Larry Niven Christopher Priest William S Burroughs Arthur C Clarke Alvin Toffler John T Sladek D M Thomas und Keith Roberts Coping Systems for Employee Turnover Sebastian Reiche, 2003-02-03 Inhaltsangabe Abstract As business activities become increasingly global and cross nationally intertwined human resource management is no longer defined by national boundaries In particular multinational corporations MNCs face the challenge of managing their globally dispersed work force effectively Yet the field of international human resource management IHRM remains an understudied domain lacking substantial empirical and conceptual research Also a prevailing focus on quantitative data suggests a need for deeper qualitative investigations which allows a more profound assessment of the context in which IHRM unfolds By addressing IHRM at MNCs the current empirical work contributes additional scientific insights into this domain In this respect the author has selected an approach of inductive comparative case study research mainly based on qualitative data that enables the generation of theory through an iterative data driven process This method has been applied to investigate IHRM because it is particularly fruitful when examining new and narrowly developed scientific fields as well as considering contextual conditions Thus a multiple case study was conducted through exploratory and semi structured interviews with managerial employees at six western MNCs which maintain their regional headquarters for South East Asia in Singapore The initial guiding objective was to provide a more thorough understanding of the forces that influence IHRM Due to the exploratory nature of the research set up this broad focus has narrowed during the conduct of the study and the subsequent data analysis Based on the interviews employee turnover emerged as a key concern for international organizations operating in Singapore Although a tight local labour market has led to the effect that job turnover is a widespread phenomenon there is a lack of research addressing this issue and the resulting implications for foreign MNCs The present study's focus on employee turnover also takes into account the growing importance of local staff for MNCs Indeed by acknowledging the critical role that local nationals play at the host country level it will be increasingly imperative for international organizations to establish effective retention strategies Despite this obvious significance the field of managing employee turnover also remains considerably underdeveloped Building on the results of the conducted multiple case study the purpose of **Die Volksmärchen der Magyaren im**
