Charters Of Freedom Founding Documents Of American Democracy:

Charters of Freedom, 2012 **The Code of Hammurabi** Jack Sholl, Jeane Breazeale, 2013-09-17 This case study shows that a widely used U S Government high school textbook puts an ancient King of Babylon on the same level as American founding fathers George Washington Thomas Jefferson and John Adams The research study finds that the assertion that the Hammurabi Code is an underlying document of the United States as millions of American high school students are being taught today is not correct The U S Declaration of Independence the U S Constitution and the Bill of Rights are the founding documents of the United States The study challenges the claim by both legalists and religionists to the presumed importance of this ancient code to the foundations of American government now and in the past It warns that historical revisionism of this type poses a threat to U S national security at a time when American values are being challenged abroad especially in the Middle East It finds no overall uniform oversight or coordination of parties at all levels involved in high school textbook content The present system for fully reviewing textbooks and curricula a combination of publishers school boards issue blind teachers and academics government and national security agencies is not working Unless corrected the foundations of freedom and democracy and the Judeo Christian spiritual values upon which they are built will continue to be seriously eroded in the nation's high schools *The Charters of Freedom* Various Authors, 2026-05-05 A collector's edition of the key founding documents of the United States distinctively packaged as a deluxe hardcover edition with specially curated inserts throughout This exquisitely designed volume collects the U S Constitution and other selected foundational American documents instrumental to the creation and defining philosophy of the United States including the Bill of Rights the Federalist Papers and Thomas Paine's fiery call to action Common Sense Together these texts trace the progress of American democracy from a hard won independence from Britain to the establishment of the supreme law of the land This edition will also include 10 tracing paper envelopes each containing a 4 color paper replica of letters documents and other ephemera related to the course of early U S history sealed inside 1 The Constitution of the United States 2 The Declaration of Independence 3 The Bill of Rights 4 The Emancipation Proclamation 5 The Declaration of Sentiments 6 Map of the original 13 colonies 7 Colonial banknotes 8 Sheet music for The Star Spangled Banner 9 Newspaper celebrating the Revolutionary War victory 10 Revolutionary War battlefield map **Prologue**, 2016 **Democracy in America: Is it in Peril?** Plammoottil V. Cherian, 2023-02-23 Democracy in the world is backsliding in many countries around the globe at the present time due to various reasons Different nations may have their own particular reasons such as socioeconomic inequality poverty failure of checks and balances that may result in an abrupt military coup d etat to change from democracy to tyranny In nations where democracy failed there were no tanks on the street Constitution of the land remained but elected leaders became autocrats maintaining a veneer of democracy America being a nation with nearly 80 percent of Christians has been the strongest democracy in the world who championed it as the model for the rest of the world However democracy in America appears to

be in peril because of political bickering partisan gridlock and promulgation of falsities misinformation and faux faith by one political party By introducing the foundational principles of democracy from the philosophical arguments of Socrates Plato and Aristotle the author shows how and why the cornerstone of democracy in America shows signs of crumbling The book vividly explains Politics without God will shatter the foundation of democracy Present political system rejects the checks and balances laid by the founding fathers The right wing has cultivated a spirit of untruth that spreads like a wildfire Rejecting truth by political parties and leadership is a sign of strong delusion There is a clear moral bankruptcy in the present political sphere of our nation The brightness of democracy in America which Tocqueville praised has been tarnished Hypocritical and dishonest leaders should not reign lest the people be ensnared American politicians must register their solemn oath in heaven to act in truth No nation can be established in one day but can shatter in one day by a despot America must realign with God to lead the nation in truth justice and freedom for all Democracy turns to tyranny when a moral man becomes amoral With biblical prophecies and instructions the author shows that America faces a real threat to its democracy unless it resists tyrants with all their mind soul and strength which is obedience to God who can anchor the nation on its solid foundation set by the Founding Fathers Every citizen political and judicial leaders of the nation are the cupbearers and the watchmen of the nation

What Do You Have To Lose? David L. Nelson, Mary Margaret Serpento, 2024-11-14 This book is different It seeks to answer a question Donald Trump asked voters What the hell have you got to lose by showing how our right to vote in free and fair elections and to have our vote counted is under attack on several fronts some obvious some not It shows how the U S Constitution gave us that right and so much more But the January 6 2021 violence was the first time in our history the right came under direct assault by our own citizens It drove the message home voters you got skin in the game From the Civil War onward Americans have struggled to secure their rights in court and through the ballot box But the current threat is more than battles over voting rights and hot button issues vastly different from anything we faced before and very real This book inventories those rights and explains how they stand at the forefront of the American experience It walks the reader through the threat to our rights and representative democracy It emphasizes that voters only have a democracy if they keep it and vote

American Constitutionalism Heard Round the World, 1776-1989 George Athan Billias, 2011-12 Winner of the 2010 Book Award from the New England Historical Association American constitutionalism represents this country's greatest gift to human freedom yet its story remains largely untold For over two hundred years its ideals ideas and institutions influenced different peoples in different lands at different times American constitutionalism and the revolutionary republican documents

on which it is based affected countless countries by helping them develop their own constitutional democracies Western constitutionalism of which America was a part along with Britain and France reached a major turning point in global history in 1989 when the forces of democracy exceeded the forces of autocracy for the first time Historian George Athan Billias traces the spread of American constitutionalism from Europe Latin America and the Caribbean region to Asia and Africa beginning chronologically with the American Revolution and the fateful shot heard round the world and ending with the conclusion of the Cold War in 1989 The American model contributed significantly by spearheading the drive to greater democracy throughout the Western world and Billias s landmark study tells a story that will change the way readers view the important role American constitutionalism played during this era Cybercitizen Christopher Kush,2000-09-02 A guide to using the Internet to find information about the United States government that explains how on line Americans can influence lawmakers provides listings of the best political government and news web sites and offers advice on how to use a computer to become more involved in the government
