Chasing Molecules Poisonous Products Human Health And The Promise Of Green Chemistry:

Chasing Molecules Elizabeth Grossman, 2012-09-08 Elizabeth Grossman an acclaimed journalist who brought national attention to the contaminants hidden in computers and other high tech electronics now tackles the hazards of ordinary consumer products She shows that for the sake of convenience efficiency and short term safety we have created synthetic chemicals that fundamentally change at a molecular level the way our bodies work The consequences range from diabetes to cancer reproductive and neurological disorders Yet it s hard to imagine life without the creature comforts current materials provide and Grossman argues we do not have to A scientific revolution is introducing products that are benign by design developing manufacturing processes that consider health impacts at every stage and is creating new compounds that mimic rather than disrupt natural systems Through interviews with leading researchers Grossman gives us a first look at this radical transformation

Chasing Molecules Elizabeth Grossman, 2012-06-22 Each day headlines warn that baby bottles are leaching dangerous chemicals nonstick pans are causing infertility and plastic containers are making us fat What if green chemistry could change all that What if rather than toxics our economy ran on harmless environmentally friendly materials Elizabeth Grossman an acclaimed journalist who brought national attention to the contaminants hidden in computers and other high tech electronics now tackles the hazards of ordinary consumer products She shows that for the sake of convenience efficiency and short term safety we have created synthetic chemicals that fundamentally change at a molecular level the way our bodies work The consequences range from diabetes to cancer reproductive and neurological disorders Yet it s hard to imagine life without the creature comforts current materials provide and Grossman argues we do not have to A scientific revolution is introducing products that are benign by design developing manufacturing processes that consider health impacts at every stage and is creating new compounds that mimic rather than disrupt natural systems Through interviews with leading researchers Grossman gives us a first look at this radical transformation Green chemistry is just getting underway but it offers hope that we can indeed create products that benefit health the environment and industry

Chasing Molecules Elizabeth Grossman, 2009-09-07 Elizabeth Grossman an acclaimed journalist who brought national attention
Environmental Health Perspectives , 2009-07 **Letters to a Young Chemist** Abhik Ghosh, 2011-04-05 What s it really like to be a chemist Leading chemists share what they do how they do it and why they love it Letters to a young has been a much loved way for professionals in a field to convey their enthusiasm and the realities of what they do to the next generation Now Letters to a Young Chemist does the same for the chemical sciences Written with a humorous touch by some of today s leading chemists this book presents missives to Angela a fictional undergraduate considering a career in chemistry The different chapters offer a mix of fundamental principles contemporary issues and challenges for the future Marye Anne Fox Chancellor of the University of California San Diego talks about learning to do research and modern physical organic chemistry Brothers Jonathan and Daniel Sessler explain the chemistry of anesthetics that make modern surgery possible

while Elizabeth Nolan talks about biological imaging Terry Collins talks about green chemistry a more sustainable way of doing chemistry while several authors including Carl Wamser Harry Gray John Magyar and Penny Brothers discuss the crucial contributions that chemists can make in meeting global energy needs Letters to a Young Chemist gives students and professionals alike a unique window into the real world of chemistry Entertaining informative and full of honest and inspiring advice it serves as a helpful guide throughout your education and career The different chapters describe both the wonders of the molecular world and the practical benefits afforded by chemistry and if any girl out there thinks that chemistry is a man's world this book should be a good antidote Marye Anne Fox Chancellor of the University of California San Diego and winner of the 2009 US National Medal of Science Letters to a Young Chemist offers significant ammunition for motivating young people to consider chemistry as a career This book should also be required reading for all faculty members who teach chemistry in high schools colleges and universities Stephen J Lippard Arthur Amos Noyes Professor of Chemistry

Massachusetts Institute of Technology and winner of the 2006 US National Medal of Science **Synthesizing Hope** Anne Pollock, 2019-05-08 Synthesizing Hope opens up the material and social world of pharmaceuticals by focusing on an unexpected place iThemba Pharmaceuticals Founded in 2009 with a name taken from the Zulu word for hope the small South African startup with an elite international scientific board was tasked with drug discovery for tuberculosis HIV and malaria Anne Pollock uses this company as an entry point for exploring how the location of scientific knowledge production matters not only for the raw materials manufacture licensing and distribution of pharmaceuticals but also for the making of basic scientific knowledge Consideration of this case exposes the limitations of global health frameworks that implicitly posit rich countries as the only sites of knowledge production Analysis of iThemba identifies the problems inherent in global north south divides at the same time as it highlights what is at stake in who makes knowledge and where It also provides a concrete example for consideration of the contexts and practices of postcolonial science its constraints and its promise Synthesizing Hope explores the many legacies that create conditions of possibility for South African drug discovery especially the specific form of settler colonialism characterized by apartheid and resource extraction Paying attention to the infrastructures and laboratory processes of drug discovery underscores the materiality of pharmaceuticals from the perspective of their makers and tracing the intellectual and material infrastructures of South African drug discovery contributes new insights about larger social political and economic orders **Fundamentals of Environmental and**
