DMWR Manuals **Regulus Missile Service and Launching Instructions** U. S. Navy, 2009-02 The Regulus missile was a
direct outgrowth of World War II The success of Germany s V 1 buzz bombs and the awesome power of the a bomb suggested
that developing a submarine launched nuclear armed guided missile was an imperative The Chance Vought Aircraft Company
won the contract for Regulus with a bold proposal Their missile resembled a pilotless jet aircraft and during the test phase
was equipped with landing gear allowing the missile to be recovered rather than expended during the tests Regulus would be
radio controlled either by a chase aircraft or by a nearby ship or submarine and it could carry a nuclear payload JATO
boosters enabled submarine launch of the Regulus It would be deployed aboard five submarines They conducted the nation s
first nuclear deterrent patrols off the coast of the Soviet Union in 1959 1964 Originally printed by the U S Navy and Chance
Vought this handbook was restricted It was declassified and is here reprinted in book form Technical Report Human
