promoting the body's immunity **Eat Like a Human** Bill Schindler, 2021-11-16 An archaeologist explains how to follow our ancestors' lead when it comes to dietary choices and cooking techniques for optimum health and vitality. Our relationship to food is filled with confusion and insecurity. Vegan or carnivore? Vegetarian or gluten-free? Keto or Mediterranean? Fasting or Paleo? Every day we hear about a new ingredient that is good or bad, a new diet that promises everything. Our conversations are filled with a dizzying array of approaches to and perspectives on our relationship to food. But the truth is that none of those labels matter. The secret to becoming healthier, losing weight, living a pain-free and energetic life, and healing the planet has nothing to do with counting calories, reducing portion sizes, or feeling deprived. The key is re-learning how to eat like a human. This means finding food that is as nutrient-dense as possible and preparing that food using methods that release those nutrients and make them safe and bioavailable to our bodies, which is exactly what allowed our ancestors millions of years ago to not only live but thrive. In *Eat Like a Human*, archaeologist and primitive technologist Dr. Bill Schindler draws on cutting-edge science and a lifetime of research to explain how safety, nutrient density, and bioavailability are the cornerstones of a healthy diet. He shows readers how to live like modern hunter-gatherers by using the same strategies our ancestors used, as well as techniques still practiced by many cultures around the world, to make food as safe, nutritious, bioavailable, and delicious as possible. With each chapter dedicated to a specific food group, in-depth explanations of different foods and cooking techniques, and concrete takeaways, as well as 75 recipes, *Eat Like a Human* will permanently change the way you think about food and help you live a happier, healthier, and more connected life.

The Angry Chef Anthony Warner, 2017 When people lie about food, that is when *Angry Chef* comes out. Whether it is the latest Instagram star, celebrity diet guru, fitness blogger, or self-appointed nutrition expert, *Angry Chef* is there to take them down. We have never had so much information available to us about food and health. There's GAPS, paleo, detox, gluten-free, alkaline, the sugar conspiracy, clean eating. But unfortunately, much of that information is damaging, unscientific, and wrong. So why do we believe them? Using insight from psychiatrists, behavioural economists, food scientists, and dietitians, *Angry Chef* unravels why sensible, intelligent people are so easily taken in by the latest food fads, giving readers the tools to spot pseudoscience for themselves. And when he's done, he will sit down and have a nice cup of tea. With two fucking sugars in it. This is the truth about food. Are you ready to hear it?
