

Start-Up

The DD15 device will power up without user interaction, and operate in default mode until communication with the thermostat is established. The diagnostic LED will fast blink on start up. The system will return to the last configured temperature setting, and update upon first interaction. The DD15 will send all necessary field settings to the Daikin IDU, such as fan always, and remote measured room temperature (temperature measured from the INNCOM e528 or e527 thermostat).

Check installation

NOTE:

Continue for wired communication only, for wireless communication complete RF BIND PROCEDURE, first!

1. Power up the Daikin indoor unit first.
2. Red power LED is lit
3. Set the thermostat to the highest setpoint check if the indoor unit engages heating
4. Set a setpoint like 65F lower than the room temperature and check if the indoor unit coordinate providing cooling.
5. The Daikin indoor unit may need 1 to 5 minutes for cool/heat mode changeover.
6. Confirm the room temperature input at iTM is matching with what read at e528.
7. Change the fan speed at the thermostat and confirm the fan speed change at indoor unit and iTM.

DD15 RF Bind Procedure

NOTE:

S1 is used for teaching the DD15 a specific device address or function map. Use a paper clip to access S1 for teaching the address.

1. The DD15 uses a "reverse binding" procedure to acquire network information from the thermostat, meaning that the device will signal the thermostat that it wants the information. Besides the information set in the thermostat in the steps above, the DD15 requires a map of network components, complete with unique address. This information is typically carried in the I/O Map.
2. Place the thermostat in Service Parameter mode as above. Go to the Io (I/O Map Teach) parameter and press the DISPLAY button (for e528.4G) or OFF/AUTO to view the value. Set the Io value to the desired I/O Map number. Do NOT press the thermostat's DISPLAY or OFF/AUTO button.
3. For the e528.4G, press OFF/AUTO and the LCD will display **bnd**.
4. Using a small point (e.g., the end of a straightened paper clip),
