## **Decision At Sea Five Naval Battles That Shaped American History:**

Decision at Sea Craig L. Symonds, 2006-10-23 From thunderous broadsides traded between wooden sailing ships on Lake Erie to the carrier battles of World War II to the devastating high tech action in the Persian Gulf here is a gripping history of five key battles that defined the evolution of naval warfare and the course of the American nation Acclaimed military historian Craig Symonds offers spellbinding narratives of crucial engagements showing how each battle reveals the transformation of technology and weaponry from one war to the next how these in turn transformed naval combat and how each event marked a milestone in American history Oliver Hazard Perry's heroic victory at Lake Erie one of the last great battles of the Age of Sail which secured the Northwestern frontier for the United States The brutal Civil War duel between the ironclads Monitor and Virginia which sounded the death knell for wooden hulled warships and doomed the Confederacy's hope of besting the Union navy Commodore Dewey's stunning triumph at Manila Bay in 1898 where the U S displayed its new navy of steel hulled ships firing explosive shells and wrested an empire from a fading European power The hairsbreadth American victory at Midway where aircraft carriers launched planes against enemies 200 miles away and where the tide of World War II turned in the space of a few furious minutes Operation Praying Mantis in the Persian Gulf where computers ship fired missiles and smart bombs not only changed the nature of warfare at sea but also marked a new era and a new responsibility for the United States Symonds records these encounters in detail so vivid that readers can hear the wind in the rigging and feel the pounding of the guns Yet he places every battle in a wide perspective revealing their significance to America's development as it grew from a new Republic on the edge of a threatening frontier to a global superpower *Decision at Sea* is a powerful and illuminating look at pivotal moments in the history of the Navy and of the United States It is also a compelling study of the unchanging demands of leadership at sea where commanders must make rapid decisions in the heat of battle with lives and the fate of nations hanging in the balance *Decisions at Sea* Craig L. Symonds, 2007 *Battles That Changed American History* Spencer C. Tucker, 2014-01-22 A fascinating and informative analysis by a distinguished military historian of the 100 most influential battles in American history presented in an accessible ready reference format The Battle of Okinawa April June 1945 resulted in more U S Navy casualties than all of the navy's previous wars combined these heavy casualties influenced the decision to employ the atomic bomb against Japan that August This is just one of many instances in American military history when the outcome of a battle helped to establish the course of history the focus of this latest encyclopedia from esteemed historian Spencer C Tucker The 100 battles spotlighted in this work which include defeats as well as victories are deemed to have had the greatest impact on American history Spanning more than 500 years of military events the book begins its coverage with the Battle of Mabila in 1540 during the Age of Discovery and ends with the Second Battle of Falluja during the Iraq War Insurgency in 2004 Expertly written informative and thoughtful this analysis will be insightful and interesting for all high school undergraduate and general readers The Civil War Memoir of a Boy from

Holzer,2011-04-05 In July 1883 just a few days after the twentieth anniversary of the Battle of Gettysburg a group of editors at The Century Magazine engaged in a lively argument Which Civil War battle was the bloodiest battle of them all One claimed it was Chickamauga another Cold Harbor The argument inspired a brainstorm Why not let the magazine s 125 000 readers in on the conversation by offering a series of papers on some of the great battles of the war to be written by officers in command on both sides The articles would be written by generals Union and Confederate alike who had commanded the engagements two decades earlier or if he were not living by the person most entitled to speak for him or in his place The pieces would present both sides of each major battle and would be fair and free of politics In commemoration of the 150th

anniversary of the Civil War the most enduring entries from the classic four volume series Battles and Leaders of the Civil War have now been edited and merged into one definitive volume Here are the best of the immortal first person accounts of the Civil War originally published in the pages of The Century Magazine more than a hundred years ago Hearts Touched by Fire offers stunning accounts of the war s great battles written by the men who planned fought and witnessed them from leaders such as General Ulysses S Grant General George McClellan and Confederate captain Clement Sullivane to men of lesser rank This collection also features new year by year introductions by esteemed historians including James M McPherson Craig L Symonds and James I Robertson Jr who cast wise modern eyes on the cataclysm that changed America and would go down as the bloodiest conflict in our nation s history No one interested in our country s past will want to be without this collection of the most popular and influential first person Civil War memoirs ever published *Iron Dawn* Richard Snow,2016-11-01 An utterly absorbing account of one of history s most momentous battles Forbes that not only changed the Civil War but the future of all sea power from acclaimed popular historian Richard Snow who writes with verve and a keen eye The New York Times Book Review No single sea battle has had more far reaching consequences than the one fought in Hampton Roads Virginia in 1862 The Confederacy with no fleet of its own took a radical step to combat the Union blockade building an iron fort containing ten heavy guns on the hull of a captured Union frigate named the Merrimack The North got word of the project and in panicky desperation commissioned an eccentric inventor named John Ericsson to build the Monitor an entirely revolutionary iron warship Rushed through to completion in just one hundred days it mounted only two guns but they were housed in a shot proof revolving turret The ship hurried south from Brooklyn only to arrive to find the Merrimack had already sunk half the Union fleet and would be back to finish the job When she returned the Monitor was there She fought the Merrimack to a standstill and many believe saved the Union cause As soon as word of the fight spread Great Britain the foremost sea power of the day ceased work on all wooden ships A thousand year old tradition ended and the naval future opened Richly illustrated with photos maps and engravings Iron Dawn renders all previous accounts of the encounter between the Monitor and the Merrimack as obsolete as wooden war ships The Dallas Morning News Richard Snow brings to vivid life the tensions of the time in this lively tale of science war and clashing personalities The Wall Street Journal
