The Language of Man: Learning to Speak Creativity Larry Robertson, 2016 Impressionism the iPhone democracy Uber when we think about creativity we most often think of things We also narrow in on the few those rare creators who seem to have something we lack These tendencies quickly take us off track perpetuating a myth and unknowingly pushing us further away from the possible Here's the truth Creativity is about the possible It's the seed of any human advancement ever made or yet to be imagined Most important and powerful of all creativity is a uniquely human capacity that each of us possesses including you The story of creativity is the story of who we are a story still unfolding It's time we come to understand it and learn how each of us can contribute our verse It's time we understand this language of man and learn to speak creativity The Language of Man provides more than needed understanding it offers a powerful framework for creating If you want to create or innovate this book is indispensable *Angels* Jack Graham, 2016-06-21 Leading Baptist Pastor Teaches the Truth about Angels Myths about angels are everywhere Do we become angels when we die Are angels always hovering nearby on guard to protect us from danger Can we talk to them Many of our ideas about angels come from the media which is more interested in ratings and ticket sales than truth As Christians it's important to understand what angels really are Pastor Jack Graham walks readers through Scripture revealing the truth about angels and their roles as worshipers of the Lord witnesses to his glory and warriors fighting on his behalf Focusing on practical application Dr Graham separates fact from fiction encouraging you to become a better worshiper warrior and witness Includes end of chapter questions A small group curriculum DVD will also be available **Drivel** Julia Scott, 2014-09-02 The writing in this book is so bad it deserves its own

Schultermandl, 2025-02-12 This book explores formations of oceanic kinship in transnational American literature and culture from the seventeenth to the twenty first centuries The chapters in this edited volume examine how kinship as a critical idiom and conceptual lens can help us rethink forms of human and nonhuman belonging in oceanic contexts The book s notion of kinship encompasses practices of mutual care which emerge from an understanding of interdependence collectivity and affiliation Taken together the essays critically engage with a variety of themes and concepts in oceanic studies postcolonial ecologies maritime labor histories slavery and indentured servitude extractive capitalism settler colonialism race and ethnicity gender sexuality the posthuman the Anthropocene and decolonial epistemologies They therefore contribute new perspectives from kinship studies to current conversations in the blue humanities and adjacent fields such as diaspora studies Black studies Indigenous studies ecocriticism and queer theory Together they probe possibilities for an oceanic ethics of care for the twenty first century This book will be relevant to students and scholars of oceanic studies literary studies cultural studies and those interested in the intersections of kinship the environmental humanities and postcolonial theory The chapters in this book were originally published as a special issue of Atlantic Studies Ultimate Adventure Guide Andy
