Case Studies In Sustainability Management The Oikos Collection:

Case Studies in Sustainability Management Jordi Vives Gabriel, 2017-11-30 With the rapidly growing importance of sustainability and corporate responsibility in a globalised world management schools are increasingly integrating long term economic environmental and social issues into their teaching and research Climate change poverty labour standards and human rights are among the many topics that future decision makers will need to face in their careers Business education needs to reflect this new reality and provide a broadened understanding of value creation in order to create economic capital while developing social and preserving natural capital Case studies can be important tools for creating learning processes on different levels students are forced to struggle with exactly the kinds of decisions and dilemmas managers confront every day In this reflection of reality the values and goals of the student are systematically challenged This can be especially valuable in the context of sustainability management organisations are now continually forced to value the different aspects of sustainability and their interrelations How do social issues impact the economic bottom line How can an environmentally sound strategy create a positive impact on employee motivation and thus have measurable impact on economic performance What comes first and why This third collection of oikos case studies is based on the winning cases from the 2010 to 2013 annual case competition So what makes an excellent case in sustainability management These cases have been highly praised because they provide excellent learning opportunities tell engaging stories deal with recent situations include quotations from key actors are thought provoking and controversial require decision making and provide clear take aways These cases are clustered in three different sections Large Corporations and Corporate Sustainability Dilemmas Managing Stakeholder Relations and Sustainability as a Source of Differentiation Strategies *Case Studies in Sustainability Management* will be an essential purchase for educators and is likely to be widely used as a course textbook at all levels of management education Online Teaching Notes to accompany each chapter are available on request with the purchase of the book

Case Studies in Sustainability Management and Strategy Jost Hamschmidt, 2017-11-28 With the rapidly growing importance of sustainability and corporate responsibility in a globalised world management schools are increasingly integrating long term economic environmental and social issues into their teaching and research Climate change poverty labour standards and human rights are among the many topics that future decision makers will need to face in their careers Business education needs to reflect this new reality and provide a broadened understanding of value creation in order to create economic capital while developing social and preserving natural capital Many sustainability trends also offer interesting new business opportunities that are ripe for entrepreneurial thinking Case studies can be important tools for creating learning processes on different levels students are forced to struggle with exactly the kinds of decisions and dilemmas managers confront every day In this reflection of reality the values and goals of the student are systematically challenged This can be especially valuable in the context of sustainability and strategy organisations are now continually

forced to value the different aspects of sustainability and their interrelations How do social issues impact the economic bottom line How can an environmentally sound strategy create a positive impact on employee motivation and thus have measurable impact on economic performance What comes first and why But excellent case studies for management education in the field of sustainability management and strategy are rare This innovative collection has been produced to fill this gap It is based on the winning cases of an annual competition organised by oikos the international Student Organization for Sustainable Economics and Management So what makes an excellent case in sustainability management These cases have been highly praised because they provide excellent learning opportunities tell engaging stories deal with recent situations include quotations from key actors are thought provoking and controversial require decision making and provide clear take aways These cases explore both the opportunities and pitfalls companies and NGOs face in targeting sustainability issues and how their values and core assumptions impact their business strategies They deal with a myriad of issues including supply chain management stakeholder dialogue social entrepreneurship sustainable marketing ethics governance the business case for sustainability partnerships purchasing and climate change Case Studies in Sustainability Management and Strategy is an essential purchase for educators and is likely to be a widely used as a course textbook at all levels of management education Online Teaching Notes to accompany each chapter are available on request with the purchase of the book

Case Studies in Social Entrepreneurship and Sustainability Jost Hamschmidt, Michael Pirson, 2018-02-06 The case studies in this second volume focus on entrepreneurs targeting sustainability issues and how their personal values shape strategies and initiatives The award winning cases describe new patterns of value creation and the challenges of dealing with existing paradigms

Handbook of Sustainability in Management Education Jorge A. Arevalo, Shelley F. Mitchell, 2017-06-30 This Handbook strives to enhance knowledge and application within sustainability in management education SiME across different academic programs geographic regions and personal professional contexts Cross disciplinary and boundary spanning this book focuses on specific themes and is therefore split into four distinct sections one on theory and practice one on transformational interventions in business programs one on the role of external agents and the last on innovative approaches in SiME

Case Studies in Social Entrepreneurship and Sustainability Jost Hamschmidt, 2017 In 2008 Ashoka launched the Changemaker Campus Initiative which applies Ashoka's rigorous criteria to select and support universities as they develop and implement a comprehensive social entrepreneurship plan Through the lessons learned from this network and with input from its broader global network of those experienced in the field Ashoka aims to set a new standard for social entrepreneurship education Indeed despite the rising demand there remains a dire need for quality coursework and global teaching case studies Social entrepreneurs and the pressing challenges they solve are not bound by geographic borders or a single political environment yet there is a lack of the materials necessary to equip students with the skills and mind set required to catalyze systemic social change What few high quality case studies do exist typically highlight

social entrepreneurs within the United States This cooperation with oikos within the Social Entrepreneurship Track of the annual oikos Global Case Competition is a critical vehicle for tackling that challenge As a result of this effort more locally relevant case studies are being written peer reviewed and judged than ever before and are able to make their way into the hands of global audiences eager to adopt them into their courses Building social entrepreneurship skills and problem solving abilities are best practiced and honed using real life examples and strategic challenges not just learning theories in a vacuum Case studies provide this exposure and real time training in systemic problem solving Through these 15 teaching cases students learn that social entrepreneurship is about identifying root causes of problems and applying a solution that tackles the system As study upon study has shown the band aid approach does not work To effectively address a social problem the solution must continually adapt and evolve based on market feedback about what works and what needs to change in the model Case Studies in Social Entrepreneurship and Sustainability is the second volume resulting from the oikos Global Case Writing Competition an annual program launched in 2003 to promote the publication of high quality teaching cases in corporate sustainability This book expands the collection with award winning global cases in the rapidly growing field of social entrepreneurship and sustainability In view of the growing importance of various sustainability trends management schools are increasingly challenged to adapt their entrepreneurship and business curricula Management education needs to reflect the trends and provide a broadened understanding of value creation Sustainability is a concept that demands that organizations consider the legitimate expectations of different stakeholders in their value creation processes At the same time it underlines the fact that many sustainability trends offer new business opportunities that entrepreneurs will seize As a result value creation processes need to be reorganized in order to create economic capital while developing social capital and preserving natural capital Indeed entrepreneurial organizations are increasingly dealing with these challenges The case studies in this book explore both the opportunities and pitfalls entrepreneurs working with organizations with for profit hybrid and non profit business models face in targeting sustainability issues and how their values and core assumptions impact their business strategies They describe new patterns of value creation new alliances and the challenges of dealing with existing paradigms It is clear that new ways of doing business with a common objective of maximizing social impact are substantially shaping markets and society This textbook of competition winning case studies for management education in the field of social entrepreneurship and sustainability provides excellent learning opportunities tells engaging stories deals with recent situations includes quotations from key actors is thought provoking and controversial requires decision making and provides clear take aways Online Teaching Notes to accompany each chapter are available on request with the purchase of the book Provided by publisher

Sustainability Marketing Frank-Martin Belz, Ken Peattie, Naz Onel, 2025-08-25

EQUIPS THE NEXT GENERATION OF MARKETERS WITH THE CRITICAL SKILLS AND ETHICAL MINDSET TO LEAD IN A TIME OF UNPRECEDENTED CHANGE Since its first publication in 2009 Sustainability Marketing has set the standard for

how marketers can respond to global environmental and social challenges Now in its third edition this award winning text remains a definitive resource in the field blending rigorous theory diverse global examples and actionable strategy Sustainability Marketing offers a comprehensive structured and deeply insightful guide to integrating social environmental and ethical concerns into modern marketing strategies delivering both theoretical depth and practical tools to help students and practitioners alike navigate the evolving sustainability landscape With a fresh emphasis on global challenges digital transformation and circular economy principles the third edition reflects the latest research real world case studies and pressing debates in the field Covering a wide range of key topics from rethinking the sustainability marketing mix to navigating the ethical tensions of brand activism the authors provide a compelling blueprint for building marketing strategies that drive innovation strengthen brand trust and contribute meaningfully to sustainable development Sustainability Marketing A Global Perspective Third Edition is essential reading for advanced students exploring the future of responsible business educators integrating sustainability into their curriculum and marketing professionals looking to align strategy with purpose and contribute to a more sustainable and equitable world NEW TO THIS EDITION Expanded focus on the UN Sustainable Development Goals SDGs addressing how marketers are aligning strategies with global policy frameworks New content on greenwashing consumer trust and ethical marketing dilemmas Including societal and humanistic marketing perspectives in a polarized media and political environment Cutting edge analysis of digitalization and AI exploring opportunities such as personalization and engagement as well as risks of data asymmetries algorithm driven polarization and deepfakes Deeper integration of circular economy thinking examining how product service systems sharing models and value co creation are reshaping marketing roles and metrics Timely global case studies and updated data ranging from large multinationals to agile start ups across a variety of sectors geographies and consumer segments including new and emerging companies and enterprises that exemplify innovative sustainability marketing practices Insights into brand activism and its risks that help readers understand the fine line between purpose driven engagement and public backlash Coverage of the implications of sustainable supply chains for marketing and the role of traceability and transparency in generating credibility Incorporated and replaced the latest research to strengthen both the theoretical foundation and practical application of sustainability marketing including new research on clean technologies highlighting marketing s role in accelerating adoption and communicating impact WILEY ADVANTAGE Provides a structured step by step approach grounded in the original sustainability marketing framework refined and expanded for today s complex challenges Equips students and professionals with actionable frameworks for implementing sustainability in real marketing contexts Offers a truly global perspective with stories and challenges drawn from every continent that cover diverse industries Reflects the latest academic findings and real world practices while remaining concise and accessible for a 12 week course Employs a balanced critical lens to unpack the tensions trade offs and controversies involved in sustainable marketing Includes learning objectives discussion questions

and Sustainability Challenges in each chapter The Dark Side Emmanuel Raufflet, Albert J. Mills, 2017-09-08 The discredit of a certain brand of capitalism and the managers that practice it continues apace The increasing lack of tolerance for short term thinking and a systematic neglect of the social regulatory and economic conditions in which business ought to operate means we are entering a time of trouble and questions an era of economic social and environmental turbulence There is a critical need for business educators and trainers to expose students and managers to these issues to examine explore and understand the different multifaceted complex phenomena of our late capitalist era There is also a need to foster a climate for future and current business managers to reflect feel and think differently both ethically and cognitively The 16 innovative case studies in The Dark Side Critical Cases on the Downside of Business are designed for this very purpose to provoke reflection and debate to challenge and change perceptions and to create responsible managers The cases are innovative in two ways First in terms of content they acknowledge the diversity of actors and interests in and around organizations They contain different levels of analysis and propose different points of view and logics They recognize that decisions that seem sound when they are made may actually contain the seeds of their later failure Second these cases are innovative in terms of format Whereas most cases are formatted around decision making situations these are more diverse and open ended This stimulates the use of judgment the capacity to synthesize integrate and balance short and long term effects appreciate effects on different groups and learn to listen and evaluate Whereas decision making is the key skill when confronting complicated issues and situations judgment making relies on experience and is a far better tool in the complex murky gray areas typical of business ethics The cases included here are all finalists or award winners from the first seven years of the Dark Side of Business Case Competition a joint event of the Academy of Management's Critical Management Studies Section and Management Education Section In many areas of management case studies are almost exclusively devoted to best practice cases or difficult decisions faced by basically well managed firms When educators look for resources to illustrate to students the more typical cases let alone the really scandalous practices of the worst firms the cupboard is almost entirely bare From the beginning the Dark Side competition aimed at encouraging case studies that integrate socio political issues with organizational dynamics thus contextualizing organizational and management problems within the broader system of capitalism These cases comprise a diverse and rich collection from a range of countries continents and issues and focus on interactions in business organizations as well as between business organizations and groups and societies The Dark Side Critical Cases on the Downside of Business is divided into four sections The first sheds light on gray areas in the behavior of businesses The second concerns the interactions between business and local communities in diverse countries The third concerns crises and specifically how firms may create or manage them Finally the fourth section concerns gray areas in business behavior in the global context The Dark Side Critical Cases on the Downside of Business will be an essential purchase for educators and is expected to be a widely used resource at all levels of management education Online Teaching

Notes to accompany each chapter are available on request with the purchase of the book International Management in Practice Volume 1 Patrick Siegfried, 2015-08-25 These Case Studies were written from students at the EBC university of applied sciences D sseldorf The students from 6th semester of the study International Business Management have visited the lecture Case Studies in International Management In this book Case studies from 8 different companies will be presented The development of their enterprises the position in the market and the strategies Internationalisation Merger Sustainability At the end of each Case Study are questions so that other students can answer these questions and with the Case Study

The Yearbook of European Environmental Law Thijs Etty, Han Somsen, 2008-09-04 The Yearbook of European Environmental Law is a joint venture between leading academics practitioners and Community officials Academics and students will find a wealth of information in the stimulating and clearly written articles The well structured and reliable Annual Survey is specifically designed to provide easy access to the very latest developments in environmental law at the European level Separate parts of the Yearbook are devoted to important policy documents and reviews of books

Concerned Markets Susi Geiger, Debbie Harrison, Hans Kjellberg, Alexandre Mallard, 2014-11-28 When political social technological and economic interests values and perspectives interact market order and performance become contentious issues of debate Such hot situations are becoming increasingly common and make for rich sites of resear

Case Studies In Sustainability Management The Oikos Collection Book Review: Unveiling the Magic of Language
