Declaring Independence Jefferson Natural Language And The Culture Of Performance:

Declaring Independence Jay Fliegelman, 1993 **Declaring Independence** Jay Fliegelman, 2022 **Jefferson's Call for Nationhood** Stephen Howard Browne, 2003-05-20 Widely celebrated in its own time Thomas Jefferson's first inaugural address commands the regard of Americans from across the political spectrum. Delivered as the young nation found itself embroiled in bitter partisan struggles, the speech has been hailed as the Sermon on the Mount of good government. Curiously, this masterpiece, the full text of which is reproduced in this volume, has never received sustained analysis. Here Stephen Howard Browne describes its origins, composition, meaning, and delivery. His well-crafted argument and accessible prose offer a model of analysis for rhetorical scholars and students and an added dimension to the history of the early republic and the understanding of American political thought. *The Body Politic* Catherine A. Holland, 2013-07-04 This work advances an original thesis that challenges the dominant schools of thought concerning the liberal tradition in the US. **Thomas Jefferson's Ethics and the Politics of Human Progress** Ari Helo, 2014 This extensive study suggests that despite being one of the largest slaveholders in Virginia, Jefferson was consistent in his advocacy of human rights. *Staging Haiti in Nineteenth-Century America* Peter Reed, 2022-12 Peter P. Reed reveals how nineteenth-century American theatre and performance reckoned with Haiti's courageous enactments of Black freedom. *Performance Studies* Erin Striff, 2002-09-26 What is performance? We do not need to be in a theatre to think about the theatricality of how we behave in culture, but can a performance exist if there are no spectators? How do we know when performances are taking place if there is no curtain rising and falling? What does the act of performance achieve? How does performance studies attempt to answer those questions? This collection of lively and stimulating articles on performance studies provides an understandable introduction to the field and to the way in which performance touches all of our lives, from the rituals and ceremonies in which we partake to the way we present ourselves depending on the company we keep. Together, these articles help clarify what constitutes performance studies and introduce the reader to the many theoretical perspectives, including feminist, queer, post-structuralist, and post-colonial, which are used to study performance in culture. Acts considered range from those that can be easily identified as performance, such as the strip show, to the more theoretically complex, such as performative speech. One of the first of its kind on performance studies, this reader is an essential text for all those with an interest in the subject or who are approaching it for the first time. **A Companion to the Literatures of Colonial America** Susan Castillo, Ivy Schweitzer, 2008-04-15 This broad introduction to Colonial American literatures brings out the comparative and transatlantic nature of the writing of this period and highlights the interactions between native non-scribal groups and Europeans that helped to shape early American writing. It situates the writing of this period in its various historical and cultural contexts, including colonialism, imperialism, diaspora, and nation formation. Highlights interactions between native non-scribal groups and Europeans during the early centuries of exploration. Covers a wide range of approaches to defining and reading

early American writing Looks at the development of regional spheres of influence in the seventeenth and eighteenth centuries Serves as a vital adjunct to Castillo and Schweitzer's *The Literatures of Colonial America: An Anthology* Blackwell Publishing 2001 *Pioneer Performances* Matthew Rebirthorn, 2014-11-06 *Pioneer Performances* draws from a diverse cast of relevant historical figures ultimately revealing the frontier as a set of complex performative practices imbued with a sense of trenchant social critique Literature and Music in the Atlantic World, 1767-1867 Catherine Jones, 2014-07-16 This new study looks at the relationship of rhetoric and music in the era's intellectual discourses, texts and performance cultures principally in Europe and North America Catherine Jones begins by examining the attitudes to music and its performance by leading figures of the American Enlightenment and Revolution notably Benjamin Franklin and Thomas Jefferson She also looks at the attempts of Francis Hopkinson, William Billings and others to harness the Orphean power of music so that it should become a progressive force in the creation of a new society She argues that the association of rhetoric and music that reaches back to classical Antiquity acquired new relevance and underwent new theorisation and practical application in the American Enlightenment in light of revolutionary Atlantic conditions Jones goes on to consider changes in the relationship of rhetoric and music in the nationalising milieu of the nineteenth century the connections of literature, music and music theory to changing models of subjectivity and Romantic appropriations of Enlightenment visions of the public ethical function of music
