

INTRODUCTION

So the good folks at Datsun say they are driven? Well, the fine cars they produce are driven, too, driven long and hard by happy buyers who delight in the gas-saving attributes of these imported Japanese models. The trouble is, cars that are driven need regular seeing-to, not just under-hood where a regular tune-up is suggested at intervals specified in the owner's manual, but in the brake department, transmission area, and so forth. And that's why, if you are a proud Datsun owner, you need this book. It's the perfect bridge between the too-casual owner's handbook and the overly deep factory shop manual.

Hopefully, then, this book will encourage you to get out and get under and save a few yen by doing some of the easier chores and little fix-its yourself rather than relying on an expensive professional mechanic.

No, we're not trying to take work away from the pros at the corner garage or at an authorized Datsun dealership. They have all the work they can handle in doing the bigger and more complicated repair jobs that are generally beyond the means of the driveway tinkerer. What we're trying to do is encourage you to handle smaller jobs your Datsun may need from time to time but which you just might overlook or put off doing, if it means tying your car up at a service agency for any length of time. The professional mechanic would probably just as soon have you change your own spark plugs, drain and replace your own oil and do the myriad other simple chores that need seeing-to on occasion, to keep him free for more specialized assignments.

So it's in this spirit that we have gathered together some of the easier chores that you as a Datsun owner are likely to face, and tuned them into photographic how-to's that reveal the individual steps as the job progresses. This book should become as much a part of your tool kit as your screwdrivers and wrenches. In the interests of keeping your Datsun up on all fours and running to the best of your ability, let's see if we can help convince you to become "driven" yourself.
