comprehensive selection of those aspects of management theory which could have some relevance to main contracting Mark Callender Building Employers Confederation The Business Economist This book is the first to bring together those aspects of modern theories of economics and management which are of particular relevance to the strategic behaviour of major contracting firms and it does so in a way which is easily understood by the non specialist reader It analyses the different behaviour of contracting firms which is due to the special characteristics of the construction industry *Modern Management based on Big Data II and Machine Learning and Intelligent Systems III* Antonio J. Tallón-Ballesteros, 2021-12-15 It is data that guides the path of applications and Big Data technologies are enabling new paths which can deal with information in a reasonable time to arrive at an approximate solution rather than a more exact result in an unacceptably long time This can be particularly important when dealing with an urgent issue such as that of the COVID 19 pandemic This book presents the proceedings of two conferences MMBD 2021 and MLIS 2021 The MMBD conference deals with two main subjects those of Big Data and Modern Management The MLIS conference aims to provide a platform for knowledge exchange of the most recent scientific and technological advances in the field of machine learning and intelligent systems Both conferences were originally scheduled to be held from 8 11 November 2021 in Quanzhou China and Xiamen China respectively Both conferences were ultimately held fully online on the same dates hosted by Huaqiao University in Quanzhou and Xiamen respectively The book is in two parts and contains a total of 78 papers 54 from MMBD2021 and 24 from MLIS2021 selected after rigorous review from a total of some 300 submissions The reviewers bore in mind the breadth and depth of the research topics that fall within the scope of MMBD and MLIS and selected the 78 most promising and FAIA mainstream relevant contributions for inclusion in this two part volume All the papers present original ideas or results of general significance supported by clear reasoning compelling evidence and rigorous methods **Information Processing and Network Provisioning** Michel Kadoch, Mohamed Cheriet, Xuesong Qiu, 2025-08-19 The four volume set CCIS 2416 2417 2418 and 2419 constitutes the refereed post conference proceedings of the Third International Conference on Information Processing and Network Provisioning ICIPNP 2024 Spring held in Beijing China during June 14 16 2024 The 152 revised full papers presented in these proceedings were carefully reviewed and selected from 347 submissions They focus on topics ranging from 5G 6G evolution and AI in network optimization to quantum communication and green computing *Environmental Management in Construction* Heng Li, Zhen Chen, 2007-01-24 Demands on the construction industry are changing and it is now virtually essential for environmental management to be considered at all stages of a project Many construction managers are finding a quantitative approach useful and this book outlines four quantitative methods which can be applied at different construction stages and which fit within a comprehensive framework of dynamic Environmental Impact Assessment EIA These include a method to quantitatively evaluate and reduce pollution and hazards levels a method to evaluate the environmental consciousness of proposed construction plans a method to reduce on site construction wastes

through an incentive reward programme a method to promote C and D waste exchange in the local construction industry With an experimental case study of the application of these methods this book delivers a comprehensive review of environmental management issues in construction With regulatory requirements potentially favouring the quantitative approach this timely guide ensures that contractors will be able to keep pace with environmental management standards
