Dances With Dependency Out Of Poverty Through Self Reliance:

Dances with Dependency Calvin Helin, 2014-07-01 *Dances with Dependency* offers effective strategies to eliminate welfare dependency and help eradicate poverty among indigenous populations Beginning with an impassioned and insightful portrait of today's native communities it connects the prevailing impoverishment and despair directly to a dependency mindset forged by welfare economics To reframe this debilitating mindset it advocates policy reform in conjunction with a return to native peoples ten thousand year tradition of self reliance based on personal responsibility and cultural awareness Author Calvin Helin untethered to agendas of political correctness or partisan politics describes the mounting crisis as an impending demographic tsunami threatening both the United States and Canada In the United States where government entitlement programs for diverse ethnic minorities coexist with an already huge national debt he shows how prosperity is obviously at stake This looming demographic tidal wave viewed constructively however can become an opportunity for reform among not only indigenous peoples of North America but any impoverished population struggling with dependency in inner cities developing nations and post totalitarian countries

The Empowerment Mindset Calvin Helin, 2014-07-01 *The Empowerment Mindset* takes readers on a powerful journey of self discovery so that they can transform unfulfilled lives to reflect happiness success and genuine empowerment Helin notes that if you don't acquire the knowledge to improve your life you will trap future generations of your family in the same cycle of disappointment Going beyond vague platitudes this book shows the practical way to greater success and happiness through the adoption of an empowerment mindset a way of living that empowers people to take charge of their lives If Helin's past books are an accurate gauge *The Empowerment Mindset* is destined to become the most influential self help book of the twenty first century

Power and Resistance Wayne

Antony,2020-05-06T00:00:00Z How do we make sense of the social problems that continue to plague Canadian society Our understanding of issues such as poverty racism violence homophobia crime and pollution stems from our view of how society is structured From the dominant neoliberal perspective social problems arise from individuals making poor choices From a critical perspective however these social troubles are caused by structural social inequalities Disparities in economic social and political power that is relations of power based on class race gender and sexual orientation are the central structural element of capitalist patriarchal colonialist societies The contributors to *Power and Resistance* use this critical perspective to explore Canadian social issues such as poverty colonialism homophobia violence against women climate change and so on This sixth edition adds chapters on the corporatization of higher education the lethal impacts of colonialism democracy the social determinants of health drug policy and sexual violence on campus From Treaty Peoples to Treaty Nation Greg Poelzer,Ken S. Coates,2015-07-28 Canada is a country founded on relationships and agreements between Indigenous peoples and newcomers Although recent court cases have upheld Aboriginal title rights the cooperative spirit of the treaties is being lost as Canadians engage in endless arguments about First Nations issues Each new court decision adds fuel to the debate raging between those who want to see an end to special Aboriginal rights and those who demand a return to Aboriginal sovereignty Greg Poelzer and Ken Coates breathe new life into these debates by looking at approaches that have failed and succeeded in the past and offering all Canadians from policy makers to concerned citizens realistic steps forward Rather than getting bogged down in debates on Aboriginal rights they highlight Aboriginal success stories and redirect the conversation to a place of common ground Upholding equality of economic opportunity as a guiding principle they argue that the road ahead is clear if all Canadians take up their responsibilities as treaty peoples Canada will become a leader among treaty nations *Citizen-Led Innovation for a New Economy* John Gaventa,2020-07-10T00:00:00Z This collection of eleven cases of citizens organizing for change in Canada and the United States gives form and substance to the ideal of a new economy based on fairness and environmental sustainability These are stories of local citizens responding to the economically distorting effects of globalization the environmental degradation brought about by industrial development and a deep concern about climate change Grappling with complex problems in their local communities they are forging innovation prying open cracks in the system and seizing opportunities to redirect economic life The cases in *Citizen Led Innovation for a New Economy* explore urban and rural initiatives among citizens in ethnically diverse settings First Nations Inuit Latino African American predominantly white and mixed communities where self organized efforts to bring about change have generated innovation in economic and social life Innovation in these cases means a new way of working tying economic justice to the creation of multiple types of environmental economic and social assets or forms of wealth They are stories of individuals working together to challenge the short term focus of political leadership by taking action for the sake of future generations Incorporating Culture Solen Roth,2018-12-14 Fragments of culture often become commodities when the

tourism and heritage business showcases local artistic and cultural practice And frequently this industry develops without the consent of those whose culture is commercialized What does this say about appropriation social responsibility and intercultural relationships And what happens when communities become more involved in this cultural marketplace Incorporating Culture examines how Indigenous artists and entrepreneurs are cultivating more equitable relationships with the companies that reproduce their designs on everyday objects slowly modifying a capitalist market to make room for Indigenous values and principles Moving beyond an interpretation of cultural commodification as necessarily exploitative Solen Roth discusses how communities can treat culture as a resource in a way that nurtures rather than depletes it She deftly illustrates the processes by which Indigenous people have been asserting control over the Northwest Coast art industry by reshaping it to reflect local models of property relationships and economics
