Chinese History A Manual Revised And Enlarged:

Chinese History Endymion Porter Wilkinson, 2000 Endymion Wilkinson's bestselling manual of Chinese history has long been an indispensable guide to all those interested in the civilization and history of China. In this latest edition, now in a bigger format, its scope has been dramatically enlarged by the addition of one million words of new text. Twelve years in the making, the new manual introduces students to different types of transmitted, excavated, and artifactual sources from prehistory to the twentieth century. It also examines the context in which the sources were produced, preserved, and received, the problems of research and interpretation associated with them, and the best, most up-to-date secondary works. Because the writing of history has always played a central role in Chinese politics and culture, special attention is devoted to the strengths and weaknesses of Chinese historiography. *Chinese History, Volume 1* Endymion Wilkinson, 2022-05-03 The sixth edition of *Chinese History: A New Manual*, revised and expanded to two volumes, includes the latest developments in digital tools and the ancillary disciplines essential for work on Chinese history. Volume 1 covers topics ranging from Language to Technology. Volume 2 presents primary and secondary sources chronologically by period. *The Sage Learning of Liu Zhi* Sachiko Murata, William C. Chittick, Tu Weiming, 2020-10-26 Liu Zhi (ca. 1670–1724) was one of the most important scholars of Islam in traditional China. His *Tianfang xingli* (Nature and Principle in Islam), the Chinese language text translated here, focuses on the roots or principles of Islam. It was heavily influenced by several classic texts in the Sufi tradition. Liu's approach, however, is distinguished from that of other Muslim scholars in that he addressed the basic articles of Islamic thought with Neo-Confucian terminology and categories. Besides its innate metaphysical and philosophical value, the text is invaluable for understanding how the masters of Chinese Islam straddled religious and civilizational frontiers and created harmony between two different intellectual worlds. The introductory chapters explore both the Chinese and the Islamic intellectual traditions behind Liu's work and locate the arguments of *Tianfang xingli* within those systems of thought. The copious annotations to the translation explain Liu's text and draw attention to parallels in Chinese, Arabic, and Persian language works, as well as differences. **Printing for Profit** Lucille Chia, 2020-10-26 From the eleventh through the seventeenth centuries, the publishers of Jianyang in Fujian province played a conspicuous role in the Chinese book trade. Unlike the products of government and educational presses, their publications were destined for the retail book market. These publishers survived by responding to consumer demands for dictionaries, histories, geographies, medical texts, encyclopedias, primers, how-to books, novels, and anthologies. Their publications reflect the varied needs of the full range of readers in late imperial China and allow us to study the reading habits, tastes, and literacy of different social groups. The publishers of Jianyang were also businessmen, and their efforts to produce books efficiently, meet the demands of the market, and distribute their publications provide a window on commerce and industry and the growth of regional and national markets. The broad cultural, historical, and geographical scope of the Jianyang book trade makes it an ideal subject for the study of publishing in China. Based on an

extensive study of Jianyang imprints genealogies of the leading families of printers local histories documents and annotated catalogs and bibliographies Lucille Chia has written not only a history of commercial printing but also a wide ranging study of the culture of the book in traditional China

Nation and Ethnicity Julia C. Schneider, 2017-03-13 Winner of the Foundation Council Award of the Georg August University of Göttingen Public Law Foundation in the category of Outstanding Publications of Young Scientists 2017 In *Nation and Ethnicity* Chinese Discourses on History Historiography and Nationalism 1900s 1920s Julia C Schneider give an analysis of nationalist and historiographical discourses among late imperial and early republican Chinese thinkers In particular she researches their approaches towards non Chinese people within the Qing Empire and the question on how to integrate them into a Chinese nation state Non Chinese people mainly Manchus Mongols Tibetans and Turkic Muslims Uyghurs have not been considered as important factors in the history of early Chinese nationalism so far But Chinese nationalist and historiographical discourses tell not only a lot about the Chinese image of the Other but also shed new light on the images of the Chinese Self and its assumed ability to assimilate and integrate other ethnicities

Politics in China William A. Joseph, 2010 Sixty years ago China was one of the poorest countries in the world populated mostly by rural peasants and still suffering from more than a century of internal turmoil and international humiliation Today China is a rapidly modernizing economic dynamo with growing global influence *Politics in China* is an authoritative introduction to how this transformation occurred and how China is governed today Written by an international team of highly regarded China scholars each chapter offers an accessible overview of a key topic in Chinese politics The opening section provides readers with a firm grounding in China's modern political history from the fall of the last imperial dynasty through era of communist rule under Mao Zedong Deng Xiaoping and their successors The next section covers the political system with chapters on Communist Party ideology the structure of the political system and the policies behind the country's spectacular economic performance The book then focuses on several major issues in China today politics in the countryside and the cities the arts the environment public health and population policy The final chapters cover politics in four important areas located on China's geographic periphery Tibet Xinjiang Hong Kong and Taiwan Comprehensive and fully up to date in its coverage *Politics in China* is essential not only for students studying contemporary China but for any reader interested in learning how this rising power has evolved in recent times and the workings of its current political system

Contemporary Chinese Art Jeanne Boden, 2022-05-06 In the early 1990s artist Xu Bing stamped two pigs with respectively nonsensical Latin words and fake Chinese characters and allowed them to mate in an art gallery The performance of two creatures devoid of human consciousness yet carrying on their bodies the marks of human civilization engaging in the most primal form of social

intercourse confronted the public with the tension between nature and civilization The work also addresses the tension between China and the West and therefore perfectly fits the core message of this book Contemporary art in China takes place in a post socialist post Mao context and at the same time a post traditional one searching for balance between aesthetic legacy and modernization It also tries to find its position in the post colonial globalized arena This book explores the tension between individual artistic freedom and a dominant discourse of central Chinese government between China s cultural legacy and modernization and between China and a global art world still dominated by a Western canon As a case study it focuses on the artists who participated in the Venice Biennale in 1993 which was the first time contemporary art from mainland China was structurally invited to participate in a global art context Jeanne Boden has a PhD in Oriental Languages and Cultures Her research focuses on Eurocentrism Sinocentrism and contemporary Chinese art jeanneboden.com Cover picture Xu Bing A Case Study of Transference 1993 94

Deng Xiaoping Michael Dillon, 2014-10-27 One of the most important figures in global politics during the second half of the 20th century Deng Xiaoping is generally considered the central figure behind China s economic liberalization programme that produced historically unprecedented growth rates and development beginning in the late 1970s Lifting nearly a billion people out of poverty Deng Xiaoping s Four Modernisations called for reform in agriculture industry military and science and technology Today these reforms are considered to be the crucial turning point in modern Chinese history enabling China to effectively harness its previously latent power in its quest to become a global economic superpower Just ten years after this tremendous achievement Deng s brutal suppression of the democracy movement at Tiananmen Square severely undermined his international and domestic reputation To explain the seeming contradictions between Deng Xiaoping s desire for economic liberalization and political conservatism Michael Dillon s biography utilizes recently released Chinese sources to detail Deng Xiaoping s emergence from a minority second class community in the Sichuan province via education in France to his meteoric rise to the top of the CCP s political hierarchy illustrating the ways in which his life of struggle and survival shaped his political career Dillon s biography addresses Xiaoping as both an intensely committed communist capable of playing a principal role in the Great Leap Forward from 1958 to 1961 while incurring the wrath of Mao only ten years later as he was exiled and purged during the Cultural Revolution Emphasizing Deng Xiaoping s effectiveness as a party operator and political bruiser rather than an intellectual capable of formulating the reforms for which he eventually took credit this book sheds light on Deng s ability to capitalize upon the planning expertise of other party members This biography of the central figure in China s economic liberalization is essential for any reader interested in or affected by China s rise to global prominence
