Comparative Law Introduction Method Research:

An Introduction to Comparative Law Theory and Method Geoffrey Samuel, 2014-12-01 This short book on comparative law theory and method is designed primarily for postgraduate research students whose work involves comparison between legal systems It is accordingly a book on research methods although it will also be of relevance to all students undergraduate and postgraduate taking courses in comparative law and to academics entering the field of comparison The substance of the book has been developed over many years of teaching general theory of comparative law primarily on the European Academy of Legal Theory programme in Brussels but also on other programmes in French Belgian and English universities It is arguable that there has been to date no single introductory work exclusively devoted to comparative law methodology and thus this present book aims to fill this gap

Introduction to Comparative Law Jaakko Husa, 2023-05-18 A delightful and fresh approach to the comparative study of law Jans Smits Maastricht University the Netherlands of the first edition This textbook presents a clear and thought provoking introduction to the study of comparative law The book provides students with in depth analyses of the major global comparative methodologies and theories Written in a lively style it leads the student through debates in comparative legal scholarship both in the Western world and in the lesser studied jurisdictions beyond Europe and North America The second edition includes a revised structure to help the student understand the subject an updated introductory chapter and new material on legal transplants and globalisation It also explores allied disciplines including linguistics history and post colonial studies giving students full context of the subject

The Method and Culture of Comparative Law Maurice Adams, Dirk Heirbaut, 2014-12-01 Awareness of the need to deepen the method and methodology of legal research is only recent The same is true for comparative law by nature a more adventurous branch of legal research which is often something researchers simply do whenever they look at foreign legal systems to answer one or more of a range of questions about law whether these questions are doctrinal economic sociological etc Given the diversity of comparative research projects the precise contours of the methods employed or the epistemological issues raised by them are to a great extent a function of the nature of the research questions asked As a result the search for a unique one size fits all comparative law methodology is unlikely to be fruitful That however does not make reflection on the method and culture of comparative law meaningless Mark Van Hoecke has throughout his career been interested in many topics but legal theory comparative law and methodology of law stand out Building upon his work this book brings together a group of leading authors working at the crossroads of these themes the method and culture of comparative law With contributions by Maurice Adams John Bell Joxerramon Bengoetxea Roger Brownsword Se n Patrick Donlan Rob van Gestel and Hans Micklitz Patrick Glenn Jaap Hage Dirk Heirbaut Jaakko Husa Souichirou Kozuka and Luke Nottage Martin L hnig Susan Millns Toon Moonen Francois Ost Heikki Pihlajam ki Geoffrey Samuel Mathias Siems J rn yrehagen Sunde Catherine Valcke and Matthew Grellette Alain Wijffels

Comparative Law as Critique Günter

Frankenberg,2016-04-29 Presenting a critique of conventional methods in comparative law this book argues that for comparative law to qualify as a discipline comparatists must reflect on how and why they make comparisons G nter Frankenberg discusses not only methods and theories but also the ethical implications and the politics of comparative law in bringing out the different dimensions of the discipline Comparative Law as Critique offers various approaches that turn against the academic discourse of comparative law including analysis of a widespread spirit of innocence in terms of method and critique of human rights narratives It also examines how courts negotiate differences between cases regarding Muslim veiling The incisive critiques and comparisons in this book will be of essential reading for comparatists working in legal education and research as well as students of comparative law and scholars in comparative anthropology and social sciences
