Crossing The Line When Cops Become Criminals:

Crossing the Line: When Cops Become Criminals Liza Grobler, 2013-09-05 Crossing the Line is a book of great significance in South Africa today it is an in depth examination of police corruption and crime in the country and hopes to remove the topic from academia and place it in the general public domain The topic is of course highly relevant and corruption processes need to be understood by the man on the street because after all it affects all citizens The book includes a brief focus on three international policing agencies The New South Wales Police Force London s Metropolitan Police and the New York Police Departments Internal Affairs Bureau It then moves on to the South African Police Service Highlighted is the vast array of crimes committed by members of the SAPS ranging from bribery and corruption to police brutality robbery rape and murder and includes corrupt officers symbiotic relationships with gangs and syndicates *The Truth about Crime* Jean Comaroff, John L. Comaroff, 2016-12-05 This new book by the well known anthropologists Jean and John L Comaroff explores the global preoccupation with criminality in the early twenty first century a preoccupation strikingly disproportionate in most places and for most people to the risks posed by lawlessness to the conduct of everyday life Ours in an epoch in which law making law breaking and law enforcement are ever more critical registers in which societies construct contest and confront truths about themselves an epoch in which criminology broadly defined has displaced sociology as the privileged means by which the social world knows itself They also argue that as the result of a tectonic shift in the triangulation of capital the state and governance the meanings attached to crime and with it the nature of policing have undergone significant change also that there has been a palpable muddying of the lines between legality and illegality between corruption and conventional business even between crime and policing which exist nowadays in ever greater hyphenated complicity Thinking through Crime and Policing is therefore an excursion into the contemporary Order of Things or rather into the metaphysic of disorder that saturates the late modern world indeed has become its leitmotif It is also a meditation on sovereignty and citizenship on civility class and race on the law and its transgression on the political economy of representation *Police Integrity in South Africa* Sanja Kutnjak Ivkovich, Adri Sauerma, 2020-04-29 Policing in South Africa has gained notoriety through its extensive history of oppressive law enforcement In 1994 as the country s apartheid system was replaced with a democratic order the new government faced the significant challenge of transforming the South African police force into a democratic police agency the South African Police Service SAPS that would provide unbiased policing to all the country s people More than two decades since the initiation of the reforms it appears that the SAPS has rapidly developed a reputation as a police agency beset by challenges to its integrity This book offers a unique perspective by providing in depth analyses of police integrity in South Africa It is a case study that systematically and empirically explores the contours of police integrity in a young democracy Using the organizational theory of police integrity the book analyzes the complex set of historical legal political social and economic circumstances shaping police integrity A discussion of the

theoretical framework is accompanied by the results of a nationwide survey of nearly 900 SAPS officers probing their familiarity with official rules their expectations of discipline within the SAPS and their willingness to report misconduct The book also examines the influence of the respondents race gender and supervisory status on police integrity Written in a clear and direct style this book will appeal to students and scholars of criminology policing sociology political science as well as to police administrators interested in expanding their knowledge about police integrity and enhancing it in their organizations
