understandings in order to facilitate a more holistic and inclusive understanding of women's working lives. The writers in the current volume acknowledge the changing roles of women in both public and private spheres. Women's roles in paid work are changing both in their nature and type of engagement. In addition, with an ageing population, women's roles in care work are increasingly being extended from child care to aged care. This book provides a history of theorising about women's careers in addition to presenting a focus on current empirical and theoretical work which contributes to understandings of women's working lives. It's contributions both map the current discourse and challenge future work to extend the boundaries of that discourse.
