Caring Democracy Markets Equality And Justice:

Caring Democracy Joan C. Tronto, 2013-04-12 A rethinking of American democracy that puts caring responsibilities at the center Americans now face a caring deficit there are simply too many demands on people's time for us to care adequately for our children elderly people and ourselves At the same time political involvement in the United States is at an all time low and although political life should help us to care better people see caring as unsupported by public life and deem the concerns of politics as remote from their lives Caring Democracy argues that we need to rethink American democracy as well as our fundamental values and commitments from a caring perspective What it means to be a citizen is to be someone who takes up the challenge how should we best allocate care responsibilities in society Joan Tronto argues that we need to look again at how gender race class and market forces misallocate caring responsibilities and think about freedom and equality from the standpoint of making caring more just The idea that production and economic life are the most important political and human concerns ignores the reality that caring for ourselves and others should be the highest value that shapes how we view the economy politics and institutions such as schools and the family Care is at the center of our human lives but Tronto argues it is currently too far removed from the concerns of politics Caring Democracy traces the reasons for this disconnection and argues for the need to make care not economics the central concern of democratic political life

Justice, Care, and Value Thomas Randall, 2023-07-21 In Justice Care and Value Thomas Randall argues for the radical potential of care ethics as a distinct and preferable theory of distributive justice Advancing the feminist literature this book defends a vision of society that can best enable caring relations to flourish Specifically Randall proposes a values driven theory of care ethics that derives normative criteria for evaluating the moral worth of caring relations and their surrounding institutions via a classification of the values of care They argue that such a theory gives us unique and meaningful solutions to contemporary questions of distributive justice across personal political global and intergenerational domains In doing so the book makes significant strides to engage care ethics with the broader moral and political philosophy literature Topical and interdisciplinary Randall demonstrates that care ethics has the conceptual resources to ground distributive theories of socialism territorial and natural resource rights obligations to future generations and historic redress The book will be of great interest to academics researchers and students of feminist philosophy but also of liberalism political economy and theories of global and intergenerational justice

Care Justice Nancy R. Hooyman, 2024-08-27 This book develops a care justice framework to critique and disrupt current policies and reframe a policy blueprint for elevating a just organization of care for unpaid family caregivers and underpaid home care workers assisting older adults In doing so Hooyman invites readers to envision a society that fully values the essential work of care The book is distinctive in its analysis of the interrelationships among both types of care laborers who often face structural constraints on their decision to care and whose work is devalued and marginalized Their care work affects every member of society but it is generally invisible to

others and its economic value is rarely recognized by policymakers How care work is organized and unrewarded typically has the most financial physical and emotional costs for women people of color and immigrants across the life course Inequities for care workers by race immigrant status class and sexual orientation are rooted in systemic racism sexism classism xenophobia and homophobia In this book policy priorities and change strategies are reframed to attain the six core components of a care justice framework which include fundamental structural changes to elevate care work ensure meaningful choice to care and reduce systemic inequities faced by care workers This framework is informed by feminism Black feminism intersectionality and care theory By conceptualizing care justice the author aims to stimulate new discourse and action related to the care of older adults the most important work in society and make the seemingly unattainable attainable This timely book will be salient to anyone committed to diversity equity and inclusion and with an interest in policy gerontology disability studies ethnic studies feminist studies social justice social work and social welfare
