Research Handbook on Cartels Peter Whelan,2023-03-02 Drawing together a variety of perspectives this accessible yet comprehensive Research Handbook provides an in depth analysis of the most significant issues pertaining to the legal regulation of cartels An interdisciplinary team of respected experts explores the theoretical legal economic political and comparative discourse surrounding cartel regulation

Economics for Competition Lawyers Gunnar Niels,Helen Jenkins,James Kavanagh,2011-04-07 Economics for Competition Lawyers provides a comprehensive explanation of the economic principles most relevant for competition law Written specifically for competition lawyers it uses real world examples is non technical and explains the key points from first principles

Hub-and-Spoke Cartels Luke Garrod,Joseph E. Harrington, Jr.,Matthew Olczak,2021-11-16 The first comprehensive economic and legal analysis of hub and spoke cartels with detailed case studies A cartel forms when competitors conspire to limit competition through coordinated actions Most cartels are composed exclusively of firms that would otherwise be in competition but in a hub and spoke cartel those competitors spokes conspire with the assistance of an upstream supplier or a downstream buyer hub This book provides the first comprehensive economic and legal analysis of hub and spoke cartels explaining their formation and how they operate to create and sustain a collusive environment Sixteen detailed case studies including cases brought against toy manufacturer Hasbro and the Apple ebook case illustrate the economic framework and legal strategies discussed The authors identify three types of hub and spoke cartels when an

upstream firm facilitates downstream firms to coordinate on higher prices when a downstream intermediary facilitates upstream suppliers to coordinate on higher prices and when a downstream firm facilitates upstream suppliers to exclude a downstream rival They devote a chapter to each type discussing the formation coordination enforcement efficacy and prosecution of these cartels and consider general lessons that can be drawn from the case studies Finally they present strategies for prosecuting hub and spoke collusion The book is written to be accessible to both economists and lawyers and is intended for both scholars and practitioners

European Competition Law Annual 2008 Claus-Dieter Ehlermann, Mel Marquis, 2010-01-02 This is the thirteenth in a series on EU Competition Law and Policy produced under the auspices of the Robert Schuman Centre of the European University Institute in Florence The volume contains the written contributions of numerous competition policy experts together with the transcripts of a roundtable debate which examined the subject of settlements between enforcers of competition law and defendant companies in cartel cases and in other types of antitrust cases The Workshop participants included senior judges from major jurisdictions the European Union Germany and the United States senior enforcement officials and policy makers from the European Commission from the national competition authorities of certain EU Member States and from the US Department of Justice and the US Federal Trade Commission and renowned international academics legal practitioners and professional economists In an intense intimate environment this group of experts debated a number of legal and economic issues pertaining to two broad lines of discussion 1 settlements and plea agreements in cartel cases including their links with leniency programs and with private enforcement and 2 settlements in commitment cases decided under Article 9 of Regulation 1/2003 and under comparable procedures of national law

The Economics of Collusion Robert C. Marshall, Leslie M. Marx, 2014-01-10 An examination of collusive behavior what it is why it is profitable how it is implemented and how it might be detected Explicit collusion is an agreement among competitors to suppress rivalry that relies on interfirm communication and or transfers Rivalry between competitors erodes profits the suppression of rivalry through collusion is one avenue by which firms can enhance profits Many cartels and bidding rings function for years in a stable and peaceful manner despite the illegality of their agreements and incentives for deviation by their members In *The Economics of Collusion* Robert Marshall and Leslie Marx offer an examination of collusive behavior what it is why it is profitable how it is implemented and how it might be detected Marshall and Marx who have studied collusion extensively for two decades begin with three narratives the organization and implementation of a cartel the organization and implementation of a bidding ring and a parent company's efforts to detect collusion by its divisions These accounts fictitious but rooted in the inner workings and details from actual cases offer a novel and engaging way for the reader to understand the basics of collusive behavior The narratives are followed by detailed economic analyses of cartels bidding rings and detection The narratives offer an

engaging entrance to the more rigorous economic discussion that follows The book is accessible to any reader who understands basic economic reasoning Mathematical material is flagged with asterisks *Research Handbook on Methods and Models of Competition Law* Deborah Healey, Michael Jacobs, Rhonda L. Smith, 2020-11-27 This comprehensive Handbook illuminates the objectives and economics behind competition law It takes a global comparative approach to explore competition law and policy in a range of jurisdictions with differing political economies legal systems and stages of development A set of expert international contributors examine the operation and enforcement of competition law around the world in order to globalize discussions surrounding the foundational issues of this topic In doing so they not only reveal the range of approaches to competition law but also identify certain basic economic concepts and types of anticompetitive conduct that are at the core of competition law Global Price Fixing John M. Connor, 2013-12-01 Some books get written others write themselves This book is the latter type I have devoted myself to studying the economic organization of industries related to food and agriculture for almost twenty five years It has been my good fortune to work at places that tolerated my gadfly approach to research So long as I produced a few publications each year and wooed a few graduate students to share those interests I was free to pursue an array of topics why firms diversify the competitive role of advertising strategies for selling in overseas markets measuring market power and many others Although firmly anchored in the eclectic analytical framework of industrial economics and focused on the food system I traversed a wide field at will Some years ago I had pretty much convinced myself that naked price fixing was not a high priority for scholarship in these industries True collusion was rife in a few food industries such as bid rigging among suppliers of fluid milk to school districts in isolated rural districts Ripping off milk money from school children is reprehensible enough but the size of the economic losses from localized price fixing paled besides other sources of imperfect competition
