Cyperaceae Classic Reprint Charles Clarke:

The Cyperaceae of Costa Rica (Classic Reprint) C. B. Clarke, 2018-10-02 Excerpt from The Cyperaceae of Costa Rica Several years ago Prof Henri Fittier while actively engaged in studying the plants of Costa Rica invited Mr C B Clarke then the greatest living authority on the Cyperaceae to prepare a synopsis of the genera and species of that family found in Costa Rica This work was gladly undertaken by Mr Clarke Soon after the synopsis was submitted Professor Fittier left Costa Rica to accept a position in the Department of Agriculture in Washington and after his arrival offered the paper to the United States National Museum for publication Mr Clarke having died in the meantime it seemed desirable to publish it with as little change as possible As it was prepared in Latin however the Advisory Committee on Publications recommended that it should be translated into English and Dr E L Greene was asked to prepare the manuscript In performing this task Doctor Greene has followed as closely as possible the terms and phrasing of Mr Clarke's papers written in English Further changes consist in the withdrawal of the bibliography following each species name the arrangement of the synonymy in chronological order and the insertion of the dates of publication The names of periodicals have also been substituted in the citations for subtitles and a number of names which are clearly nomina nuda have been withdrawn One new specific name has been changed because it was found to be a homonym About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
