Design As Politics Design As Politics:

Design as Politics Tony Fry, 2010-11-01 Design as Politics confronts the inadequacy of contemporary politics to deal with unsustainability Current solutions to unsustainability are analysed as utterly insufficient for dealing with the problems but further than this the book questions the very ability of democracy to deliver a sustainable future Design as Politics argues that finding solutions to this problem of which climate change is only one part demands original and radical thinking Rather than reverting to failed political ideologies the book proposes a post democratic politics In this Design occupies a major role not as it is but as it could be if transformed into a powerful agent of change a force to create and extend freedom The book does no less than position Design as a vital form of political action The Design Politics of the Passport Mahmoud Keshavarz, 2018-12-13 The Design Politics of the Passport presents an innovative study of the passport and its associated social political and material practices as a means of uncovering the workings of design politics It traces the histories technologies power relations and contestations around this small but powerful artefact to establish a framework for understanding how design is always enmeshed in the political and how politics can be understood in terms of material objects Combining design studies with critical border studies alongside ethnographic work among undocumented migrants border transgressors and passport forgers this book shows how a world made and designed as open and hospitable to some is strictly enclosed confined and demarcated for many others and how those affected by such injustices dissent from the immobilities imposed on them through the same capacity of design and artifice **Design and politics** Henk Ovink, Elien Wierenga, 2009 In establishing a professorship in Design Politics at Delft University of Technology the Ministry of Housing Spatial Planning and the Environment has launched a program of education research and practice for the spatial design of the Netherlands aimed at reinforcing the interaction between design and politics The purpose of this book is to offer inspiration and an organizing framework for that program based on history reflection policy and just as importantly ambition The book traces the history of the Netherlands thinkers makers and builders It provides an understanding of how the roles and relationships in Dutch spatial planning have been transformed and of the ideals systems and processes that have been strengthened through confrontation And it reflects on the situation today Through excerpts from conversations with designers officials decision makers researchers and other experts the editors seek to demonstrate the array of narratives in the Netherlands and abroad Challenges in Dutch politics and design whether minor or major reflect these narratives and the confrontation between them Such confrontation is essential not just to foster thoughtful deliberation but also to uncover alternatives eventualities and potentials Politics Design Carlos Simpson, 2021-07-15 Politics Design is a thought provoking exploration of the powerful role that graphic design and marketing play in contemporary politics Through a collection of striking visuals author and graphic designer Carlos Simpson delves into the world of political stamps revealing how these small but impactful tools have the power to shape public opinion and influence cultural perspectives This

exceptional book highlights some of the most iconic moments in recent political history including Brexit the rise of Donald Trump in the United States and other key global events Using typography and layout as the exclusive basis for posters signs and stickers Simpson reveals how social media platforms like Twitter and Facebook have transformed the political landscape fundamentally altering the way campaigns are waged and voters are persuaded During a constant bombardment of information and an unprecedented level of media manipulation Politics Design is a vital resource for anyone seeking to understand the complex dynamics of contemporary politics Named one of the most promising references in this field by respected publications such as People Associated Press Time Daily Mail Newsday St Louis Post Dispatch The Guardian Publishers Weekly and Royal Mail this book is essential reading for anyone seeking to make sense of the tumultuous world of modern politics

Design, Ecology, Politics Joanna Boehnert, 2018-02-08 Design Ecology Politics links social and ecological theory to design theory and practice critiquing the ways in which the design industry perpetuates unsustainable development Boehnert argues that when design does engage with issues of sustainability this engagement remains shallow due to the narrow basis of analysis in design education and theory The situation is made more severe by design cultures which claim to be apolitical Where design education fails to recognise the historical roots of unsustainable practice it reproduces old errors New ecologically informed design methods and tools hold promise only when incorporated into a larger project of political change Design Ecology Politics describes how ecological literacy challenges many central assumptions in design theory and practice By bringing design ecology and socio political theory together Boehnert describes how power is constructed reproduced and obfuscated by design in ways which often cause environmental harms She uses case studies to illustrate how communication design functions to either conceal or reveal the ecological and social impacts of current modes of production The transformative potential of design is dependent on deep reaching analysis of the problems design attempts to address Ecologically literate and critically engaged design is a practice primed to facilitate the creation of viable sustainable and just futures With this approach designers can make sustainability not only possible but attractive

Design and Political Dissent Jilly Traganou, 2020-10-27 This book examines through an interdisciplinary lens the relationship between political dissent and processes of designing In the past twenty years theorists of social movements have noted a diversity of visual and performative manifestations taking place in protest while the fields of design broadly defined have been characterized by a growing interest in activism The book's premise stems from the recognition that material engagement and artifacts have the capacity to articulate political arguments or establish positions of disagreement Its contributors look at a wide array of material practices generated by both professional and nonprofessional design actors around the globe exploring case studies that vary from street protests and encampments to design pedagogy and community empowerment projects For students and scholars of design studies urbanism visual culture politics and social movements this book opens up new perspectives on design and its place in contemporary politics
