Process and signifier, he stresses design like a philosophy of the whole (continually) shifting his awareness of the process, always with a result in progress somewhere, challenging and changing his own mind. In his last the timely delivery (not of communication) and the practice of enhancement, struggling and trying, with acquiring knowledge and defining issues in timely theorems. . . . Although he believes that knowing the future (which is not possible) is a false assumption, he has, to my mind, a natural talent for it. He becomes an oracle when he speaks of our life in the 21st century and the need for two halves in a vast and all encompassing, most from the conditions

John MAEDA

John MAEDA
Kenzo Maeda is a complex man. He carries the world through his many lenses of writing, sewing, reading, creating, organizing, and all forms of construction and deconstruction in Japan's postmodernist art discourse at the beginning of the 21st century. His personality is beautiful, yet it does in one boundary that he has not yet broken, it is the international appeal for his work. With this new book, the world now stands to benefit from Maeda of Maeda's research on the collective memories of new Japanese design from the construction.

Being and the Screen Stephane Vial, 2019-11-12 How digital technology is profoundly renewing our sense of what is real and how we perceive Digital technologies are not just tools they are structures of perception They determine the way in which the world appears to us For nearly half a century technology has

provided us with perceptions coming from an unknown world. The digital beings that emerge from our screens and our interfaces disrupt the notion of what we experience as real, thereby leading us to relearn how to perceive. In *Being and the Screen*, Stéphane Vial provides a philosophical analysis of technology in general and of digital technologies in particular that relies on the observation of experience, phenomenology, and the history of technology epistemology. He explains that technology is no longer separate from ourselves if it ever was. Rather, we are as much a part of the machine as the machine is part of us. Vial argues that the so-called difference between the real and the virtual does not exist and never has. We are living in a hybrid environment which is both digital and nondigital, online and offline. With this book, Vial endows philosophical meaning to what we experience daily in our digital age. In *A Short Treatise on Design*, Vial offers a concise introduction to the discipline of design, not a history book but a book built of philosophical problems, developing a theory of the effect of design. This book is published with the support of the University of Nanterre, France.
