Critical Issues in South African Education After 1994 Thobeka Vuyelwa Mda, Matoane Steward Mothata, 2000 This title seeks to provide a reflection on the transformation of South Africa's education system. Religious Education in a Pluralist Society John Edwards, Peter R. Hobson, 2019-07-12 Religious education in liberal pluralist societies such as the UK, the USA, and Australia underwent radical change in the 1980s and 1990s with a major shift towards multi-faith educationally oriented programmes. This has meant significant modifications to both the content and the methodology of religious education courses and to the way they are conceived of and taught in schools and universities. One important implication of this change for the teaching and study of religion today is the need for a philosophical dimension that deals with issues such as the truth status of religious statements and the moral acceptability of religious claims. This dimension is often insufficiently developed; this lack is made more critical by the multiple competing truth claims of various religions giving rise to such contentious problems as the growth of fundamentalism, increasing religious intolerance and conflict, and differences of opinion on central moral problems such as birth control, abortion, and euthanasia. This text attempts to provide the philosophical underpinning that the study and teaching of religion in modern societies requires.

Does Religious Education Matter? Mary Shanahan, 2016-07-28 In the current climate and in an age of increasing hostility towards religion and the study of religion, religious education is a much debated area. Bringing together an interdisciplinary team of contributors from the USA, Britain, and Ireland, and Australia representing a variety of religious perspectives, *Does Religious Education Matter?* provocatively demonstrates that it is vital that religious education is presented as it really is: a valuable and rich resource that when taught and engaged with appropriately stimulates essential qualities for global and responsible citizenship: critical thinking, tolerance, respect, and mutual understanding.

Debates in Religious Education L. Philip Barnes, 2011-07-07 What are the key debates in Religious Education teaching today? *Debates in Religious Education* explores the major issues all RE teachers encounter in their daily professional lives. It encourages critical reflection and aims to stimulate both novice and experienced teachers to think more deeply about their practice and link research and evidence to what they have observed in schools. This accessible book tackles established and contemporary issues, enabling you to reach informed judgements and argue your point of view with deeper theoretical knowledge and understanding. Taking account of recent controversy and challenging assumptions about the place of religion in education, expert contributors cover key topics such as: Effective pedagogy in RE teaching; Exploring thinking skills and truth claims; The relationship of science and religion in the classroom; The place of school worship in contemporary society; The role of RE in spiritual and moral development; Diversity in the RE classroom. With its combination of expert opinion and fresh insight, *Debates in Religious Education* is the ideal companion for any student or

practising teacher engaged in initial training continuing professional development and Masters level study Global Perspectives on Catholic Religious Education in Schools Michael T. Further it offers insights into the distinctive contribution that Catholic religious education makes to religious education and education in general across diverse schooling contexts.
