

Critical Care Case Study

NURS 451 - Clinical Management of Adult Health Nursing III

Purpose of Assignment

The purpose of this case study is to integrate knowledge from the humanities and sciences, including nursing research and theory, to plan, provide, and evaluate holistic care provided to a client selected during this clinical rotation.

Student Approach to Assignment

I chose to write this case study on this particular patient because this was the first patient I had cared for that was not generally awake and alert. This patient came into the hospital with a septic infection that progressed to an inability to adequately oxygenate himself and renal failure. He had been on a ventilator for several weeks by the time I was with him and had received a tracheostomy through which to be mechanically ventilated. This experience was difficult for me as he did not respond on any level to anything except for pain.

Reason for Inclusion of this Assignment in the Portfolio

This assignment gave me a new outlook on patient care and an experience that I had yet to have first hand. Caring for this patient was difficult for me for many reasons. The following program objectives are highlighted in this case study:

Critical Thinking

Evaluates nursing care outcomes through the acquisition of data and the questioning of inconsistencies

By assessing and reassessing this patient, I was able to quickly notice the changes our interventions were causing. Also, rounds on this patient included a discussion as to his need or contraindication of heparin as an anticoagulant related to his platelet and aggregation counts. This patient was still on heparin but was being evaluated on the first day for heparin-induced thrombocytopenia and on the second day, for disseminated intravascular coagulation. Both of these were the discussions during interdisciplinary rounds.

Nursing Practice

Applies appropriate knowledge of major health problems to guide nursing practice

By researching and understanding the pathophysiology going on with this patient, I was better able to treat his multiple organ dysfunction syndrome by not only correcting the root cause of the problem, but also by intervening with the associated signs and symptoms to lessen their devastating effects on this patient's health. We used his ABG values to determine appropriate ventilation settings and to ensure that his body was being properly oxygenated.

Critical Care Case Studies For Nurses

Sharon L. Edwards, Mimma Sabato

Critical Care Case Studies For Nurses:

Advanced Practice in Critical Care Sarah McGloin, Anne McLeod, 2010-02-09 Advanced Practice in Critical Care provides experienced critical care nurses with a clear and distinct evidence base for contemporary critical care practice. Central to the book is the application of research and evidence to practice and therefore case studies and key critical care clinical situations are used throughout to guide the reader through the patient care trajectory. Each chapter introduces an initial patient scenario and as the chapter progresses the patient scenario develops with theoretical perspectives and application. In this way it is evident how multi organ dysfunction develops impacting upon and influencing other body systems demonstrating the multi organ impact that is often experienced by the critically ill patient. In this way consequences of critical illness such as acute renal failure, haemostatic failure and liver dysfunction are explored. Throughout the text key research findings and critical care treatment strategies are referred to applied and evaluated in the context of the given patient case study. Advanced assessment techniques are explained and the underlying pathophysiology is discussed in depth. Advanced Practice in Critical Care is an essential resource for experienced practitioners within critical care whom primarily care for patients requiring high dependency or intensive care.

Case Studies in Critical Care Nursing Barbara Clark Mims, 1990
Review of Critical Care Nursing Sheila Drake Melander, 1996 Critical care nursing requires you to interpret and apply a great deal of information quickly and accurately. That kind of critical thinking takes practice. The kind of practice you will find in *Review of Critical Care Nursing Case Studies and Applications*. The 26 case studies and corresponding questions boost your ability to make competent confident decisions. Based on actual clinical experiences the case studies thoroughly describe a variety of pulmonary, cardiac, renal, neurological, gastrointestinal, endocrine and multi-system problems from symptoms through management. After each case study a set of 10-20 questions challenges your critical thinking, decision making and deductive reasoning skills.

Case Studies in Critical Care Nursing Sheila Drake Melander, 2004 Containing detailed and up to date case studies on critical care conditions with accompanying questions and answers for applied learning of the practice of critical care nursing, this resource allows the reader to hone vital skills that are necessary in a critical care environment.

Clinical Cases: Nursing care case studies - eBook Margaret Webb, Ellie Kirov, 2014-06-01 Perfect for Diploma of Nursing Students. Apply theory to practice with the Clinical Cases textbook series. Clinical Cases Nursing Care Studies is the perfect textbook for nursing students completing their Diploma. This nursing book offers a variety of case studies based on common real life examples that you are likely to encounter in practice. Written by Margaret Webb and Ellie Kirov, Nursing Care Studies focusses on key nursing care topics including Vital Signs, Skin Integrity and Wound Care, Community based Care, General Health Assessment, Medications and Palliative Care. Benefit from the logical structure of this nursing book where each case study begins with an introduction of the presenting condition and associated symptoms. As the scenario develops more information is provided such as the patient's condition, medications, tests and other important factors.

Best of all the conclusion of each case study emphasises patient outcomes and emphasises key points providing you a great summary to reflect on Make the most of Clinical Cases Nursing Care Studies by using it in conjunction with Taberner's Nursing Care Theory and Practice 6th Edition by Gabby Koutoukidis Kate Stainton and Jodie Hughson as you progress through your Diploma of Nursing Used together these nursing textbooks provide a strong foundation for your knowledge of important themes and issues in nursing care Support your nursing education by purchasing the other great titles available in the Clinical Cases textbook series Other titles in this series Clinical Cases Fundamentals of Nursing Case Studies by Natasha Scully and Damian Wilson Clinical Cases Medical Surgical Nursing Case Studies by Janine Bothe Other formats This book is also available as an App via the Apple App Store <https://itunes.apple.com/au/app/clinical-cases-nursing-care/id659030265> mt 8 Easy to understand logical layout 24 case studies covering key topics in nursing care Multiple choice questions to test your knowledge throughout the textbook Rationales provided for all answers References for further reading and research Designed as an exam preparation and revision tool *Case Studies in Critical Care Nursing* Sheila Drake Melander, 2001 Detailed and up to date this new second edition offers practical case studies covering a wide variety of critical care problems Each features questions and answers to help readers sharpen their critical thinking skills and prepare for the CCRN exam It features new chapters on blunt abdominal trauma and abdominal aortic aneurysm and updated case studies reflect new treatment modalities and current critical care pharmacology **Critical Care Nursing - E-Book** Linda D.
