Crossed Currents Navy Women From Wwi To Tailhook:

Crossed Currents Jean Ebbert, Marie-Beth Hall, 1993 From 1917 when Yeoman Loretta Perfectus Walsh became the first US servicewoman who was not a nurse to the infamous Tailhook scandal of today women have struggled for acceptance within the US Navy Ebbert and Hall have written a comprehensive and inspiring history that suggests Tailhook was a scandal to be expected 26 photos *Crossed Currents* Jean Ebbert, Marie-Beth Hall, 1994 A complete history of essential to anyone interested in Navy history *Oral History and Photography* A. Freund, A. Thomson, 2011-10-24 This book collects original research essays to explore the diverse uses of photographs and photography in oral history from the use of photos as memory triggers to their deployment in the telling of life stories The book's contributors include both oral historians and photography scholars and critics **Parameters** ,2001 **The Secret in Building 26** Jim DeBrosse, Colin B. Burke, 2005 For the first time the inside story of the brilliant American engineer who defeated Enigma and the Nazi code masters Much has been written about the success of the British Ultra program in cracking the Germans Enigma code early in World War II but few know what really happened in 1942 when the Germans added a fourth rotor to the machine that created the already challenging naval code and plunged Allied intelligence into darkness Enter one Joe Desch an unassuming but brilliant engineer at the National Cash Register Company in Dayton Ohio who was given the task of creating a machine to break the new Enigma settings It was an enterprise that rivaled the Manhattan Project for secrecy and complexity and nearly drove Desch to a breakdown Under enormous pressure he succeeded in creating a 5 000 pound electromechanical monster known as the Desch Bombe which helped turn the tide in the Battle of the Atlantic but not before a disgruntled co worker attempted to leak information about the machine to the Nazis After toiling anonymously it even took his daughter years to learn of his accomplishments Desch was awarded the National Medal of Merit the country's highest civilian honor In **The Secret in Building 26** the entire thrilling story of the final triumph over Enigma is finally told **Air University Library Index to Military Periodicals** ,1996 *Political and Military Sociology* Neovi M. Karakatsanis, 2017-07-05 This volume of Political and Military Sociology focuses on the perceptions and identities of those serving in the military using survey or interview data to explore those perceptions A range of military forces are examined including those of the United States Israel Norway and Denmark The first article using survey data from Denmark compares the views of Danish soldiers to civilians The second article looks at the effects of military education upon the attitudes and values of soldiers The third article explores Israeli soldiers attitudes regarding formal military education The fourth article addresses the impact of Norwegian soldiers self identity on military performance In a different vein the survey results of the fifth article show that support for soldiers on active duty in Iraq and Afghanistan does not necessarily translate into support for veterans Military lawyers in the Israel Defense Forces are the subject of the sixth article This volume concludes with an article that argues that military service should be offered as a legal policy alternative to incarceration *The Adaptive Military* James Burk, 2017-07-05 When the

cold war ended many hoped it signified enhanced prospects for a more stable world However despite favorable political developments the post cold war period has been marked by turbulence uncertainty and challenge The actions of rogue states such as Iraq and North Korea have made nuclear proliferation more unpredictable Violence in Somalia and Bosnia has cast doubt on the viability of international peacekeeping arrangements Hopes for expanding democratization have been dimmed by assertions that the values of liberal democracy and human rights are incompatible with non Western cultures The Adaptive Military describes how military security policies and practices have adapted to these new times and explains why such changes are necessary The central argument is that current conflicts have been shaped by long term trends which increased the number and complexity of threats that the developed world is supposed to meet and correspondingly decreased the stock of social and political options available to meet them Although the authors differ in their assessments about the current prospects for peace and ways to maintain security the issues they address are as critical as they were at the end of the Cold War Mobilizing resources and political support for remote and difficult enterprises will always remain contentious but if we recognize the hazard of letting violence run unopposed throughout the world then we bear some responsibility to consider how it might be checked This volume is an exercise of that responsibility It will be of great interest to experts in military studies and international relations
