Mobile City Jordan H. Kraemer,2025-01-15 In Mobile City Jordan H Kraemer charts the rise of social media and an emerging knowledge class in early 2000s Berlin Many young Germans and EU Ausl nder foreigners from other EU countries attracted to Berlin s vibrant post unification counterculture moved to the city just as they began using social media like Facebook and Twitter Social media and Berlin alike became hip sites for urban middle class aspirations but as Kraemer accounts social media users became embroiled in contestations over class mobility and identity as urban planners and developers remade Berlin into a neoliberal creative city The rise of this creative city involved scale making projects that

fused imaginaries of digital technologies with the expansive impulses of late capital a vision of world peace and economic cooperation through global interconnection But in Berlin scalar transformations were lived out through ordinary practices that reconfigured daily sociality mobility and urban space Mobile City explores how digital media practices forged emergent scales like the global and supranational yet were equally complicit in potential European disintegration and illiberalism
