Critical Citizens Global Support For Democratic Government:

Critical Citizens Pippa Norris,1999 Critical Citizens is a study on attitudes towards nation governance political institutions and political leadership The contributors argue that the crisis in global democracy has been greatly exaggerated in recent years

Handbook on Political Trust Sonja Zmerli,Tom W.G. van der Meer,2017-01-27 Political trust in government parliament or political parties has taken centre stage in political science for more than half a century reflecting ongoing concerns with the legitimacy and functioning of representative democracy To provide scholars students and policy makers with a tool to navigate through the complexity of causes and consequences of political trust this Handbook offers an excellent overview of the conceptual theoretical methodological and empirical state of the art complemented by accounts of regional particularities and authored by international experts in this field

Populist Authoritarianism Wenfang Tang,2016 Populist Authoritarianism focuses on the Chinese Communist Party which governs the world s largest population in a single party authoritarian state Wenfang Tang attempts to explain the seemingly contradictory trends of the increasing number of protests on the one hand and the results of public opinion surveys that consistently show strong government support on the other hand The book points to the continuity from the CCP s revolutionary experiences to its current governing style even though China has changed in many ways on the surface in the post Mao era The book proposes a theoretical framework of Populist Authoritarianism with six key elements including the Mass Line ideology accumulation of

social capital public political activism and contentious politics a government that is responsive to hype weak political and civil institutions and a high level of regime trust These traits of Populist Authoritarianism are supported by empirical evidence drawn from multiple public opinion surveys conducted from 1987 to 2014 Although the CCP currently enjoys strong public support such a system is inherently vulnerable due to its institutional deficiency Public opinion can swing violently due to policy failure and the up and down of a leader or an elite faction The drastic change of public opinion cannot be filtered through political institutions such as elections and the rule of law creating system wide political earthquakes **The**

Populist Challenge Jens Rydgren, 2004-06-01 During the last decade and a half a new political party family the extreme Right wing populist ERP parties has established itself in a variety of West European democracies These parties represent a monist politics based on ethnic nationalism and xenophobia as well as an opposition against the political establishment Being the prototypic ERP party the French Front National FN has been a model for ERP parties emerging elsewhere in Western Europe This study presents a theoretically based explanation that combines the macro and the micro level as well as the political supply and the demand side More specifically this study shows that it is necessary to consider both opportunity structures created by demand and supply side factors as well as the ability of the FN to take advantage of the available opportunities Of particular interest is the author's analysis of the sociology and attitudes of the FN voters **Trust,**

Tourism Development and Planning Robin Nunkoo, Stephen L.J. Smith, 2014-08-07 The dynamics of trust and distrust are central to understanding modern society social relations and development processes However numerous studies suggest that societal trust and citizen's trust in government and its institutions are on the decline challenging the legitimacy of government and leading to an undemocratic and unsustainable form of development Recognizing its importance the authors for the first time situate trust within the context of tourism development and planning This volume discusses trust in tourism from different yet intrinsically connected perspectives Chapters review how diminishing societal trust may have adversely affected tourism planning systems the role of trust in good tourism governance and sustainable tourism how trust can be used as a facilitator of participatory tourism planning political trust in tourism institutions power and how tourism development can be a basis for trust creation among society members by using social capital theory In addition a final section on Researching Trust in Tourism Development means that readers are not only provided a thorough theoretical framework on trust and an understanding of its importance for sustainable tourism and good governance of the sector but also methodological aspects of research on trust in the context of tourism development and planning This significant volume is valuable reading for students academics and researchers interested in tourism development and planning **Political Trust** Sonja Zmerli, Marc Hooghe, 2013 This book by Sonja Zmerli and Marc Hooghe presents cutting edge empirical research on political trust as a relational concept From a European comparative perspective it addresses a broad range of contested issues Can political trust be conceived as a one dimensional concept and to what extent do international population surveys

warrant the culturally equivalent measurement of political trust across European societies Is there indeed an observable general trend of declining levels of political trust What are the individual societal and political prerequisites of political trust and how do they translate into trustful attitudes Why do so many Eastern European citizens still distrust their political institutions and how does the implementation of welfare state policies both enhance and benefit from political trust The comprehensive empirical evidence presented in this book by leading scholars provides valuable insights into the relational aspects of political trust and will certainly stimulate future research This book features a state of the art European perspective on political trust an analysis of the most recent trends with regard to the development of political trust a comparison of traditional and emerging democracies in Europe the consequences of political trust on political stability and the welfare state a counterbalance to the gloomy American picture of declining political trust levels *The Palgrave Handbook of Democracy, Governance and Justice in Africa* Aderomola Adeola, Makau W. Mutua, 2022-10-03 There is an emerging consensus that what is projected as democratic governance and justice in Africa requires a re calibration in particular in relation to the constitutive demos human rights the realisation of commitments at various governance levels and the convergence between these ideations The post colonial narrative on democracy has unveiled some crevices in rule of law political equality political participation political culture and freedom of the press Aside from the fact that these notions are threatened by some existing institutional structures these notions are increasingly being negotiated across political spaces Evident in the prevalent narrative is an imperative for Africa to assert its place on the global scene of democratic governance and justice However if this will be accomplished it is important to understand some of the issues that need to be worked through in this transition
